

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .285

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .285](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002397
- Mfr. No.: B-285
- Diameter (in): .285
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024756

Safety Instruction Guide for NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .285

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .285. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide thoroughly before use to understand how to operate the product safely and responsibly.

General Safety Guidelines

- Ensure safe use of the neck sizing bushing by following all instructions.
- Be aware of potential risks associated with using steel neck bushings.
- Always handle the bushing with care to avoid injury.
- Use the product only for its intended purpose as specified by the manufacturer.
- Maintain awareness of your surroundings while using this product to prevent accidents.
- Regularly check the bushing for wear or damage before use.

Specific Safety Precautions for Use

- Do not use the neck sizing bushing if it shows signs of damage or excessive wear.
- Always wear appropriate safety gear, including safety glasses, when using this product.
- Keep the work area clean and organized to minimize risks of accidents.
- Ensure that the bushing is properly secured in the die before use.
- Avoid placing fingers or other body parts in the vicinity of the bushing while in operation.
- Be cautious of the brass cases, as they can become sharp after resizing.

Instructions for Installation and Usage

1. Installation of the Bushing:

- Ensure the die is clean and free from debris.
- Insert the neck sizing bushing into the die, ensuring it is seated properly.
- Tighten the die according to the manufacturer's specifications to secure the bushing.

2. Measuring for Proper Sizing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from the measurement to allow for brass spring back.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and then subtract .002" to .003".

3. Using the Bushing:

- Place the brass case into the shell holder of your reloading press.
- Adjust the die to ensure proper alignment with the brass case.
- Operate the reloading press to size the neck of the brass case.
- If necessary, turn the bushing over with the markings facing down for a tighter fit.

4. PostUsage:

- After use, clean the bushing and die to remove any brass shavings or debris.
- Store the bushing in a safe and dry location to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushing in regular household waste.
- Consider recycling options where applicable.

Contact Information for Further Support

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .285, please refer to the manufacturer's support resources. Always ensure you have the product details ready for any inquiries.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience while using the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .285. Thank you for your attention to safety.
