

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .286

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .286](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002398
- Mfr. No.: B-286
- Diameter (in): .286
- Delivery weight: 0.032kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024763

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .286 Safety Instruction Guide

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .286. This product is designed for precision reloading and ensures optimal neck sizing for your cartridges. It is important to follow safety guidelines to ensure safe use and to prevent any potential hazards during operation.

General Safety Guidelines

- Always handle the neck sizing bushing with care to avoid injury.
- Ensure that your workspace is clean and organized to prevent accidents.
- Use protective eyewear when operating any reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for signs of wear or damage before use.
- If you notice any defects or irregularities, do not use the bushing and contact a qualified technician.

Specific Safety Precautions for Use

- When measuring the outside neck diameter of your loaded cartridge, ensure that the measurement tool is accurate to avoid incorrect sizing.
- Avoid using excessive force when inserting or removing the bushing from the die.
- Do not attempt to modify the bushing in any way, as this may compromise its safety and functionality.
- If you are unsure about the sizing process, consult the manufacturer's instructions or seek assistance from an experienced reloader.
- Be cautious of brass that has hardened, as it may require additional care during sizing to prevent damage to the bushing or the cartridge.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including your die, bushing, and measurement tools.
- Ensure that your reloading press is securely mounted and stable.

2. Installation:

- Insert the NECK SIZING BUSHING into the L.E. Wilson Steel Neck Sizer Die.
- Ensure that the bushing is seated properly and securely in the die.

3. Measuring:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the appropriate bushing size.

4. Sizing:

- Place the cartridge in the reloading press and align it with the die.
- Slowly raise the ram to size the neck of the cartridge.
- If necessary, turn the bushing over with the markings facing down for tighter sizing, especially if the brass has hardened.

5. Post Use:

- After sizing, carefully remove the cartridge and inspect it for proper neck tension.
- Clean the bushing after use to maintain its performance and longevity.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling the stainless steel material if possible.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's website or customer service resources. It is important to stay informed about product recalls and safety updates.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .286. Always prioritize safety and consult professionals if you have any questions or concerns regarding the use of this product. Thank you for your attention to these important safety measures.
