

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .287

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .287](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002399
- Mfr. No.: B-287
- Diameter (in): .287
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024770

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .287 Safety Instructions

Introduction

Thank you for choosing the L.E. Wilson Steel Neck Sizer Die Bushing .287. This product is designed to provide precise neck sizing for your reloading needs. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure safe use of this product by following all instructions carefully.
- Be aware of the potential risks associated with using reloading equipment, including but not limited to:
 - Personal injury from improper handling.
 - Damage to equipment if used incorrectly.
- Always store the product in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe product incidents or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using this product.
- Do not exceed the recommended sizing specifications as indicated in the product guidelines.
- Ensure that the bushing is properly seated in the die before use to avoid accidents.
- Turn the bushing over with markings facing down only in emergency situations, such as when brass has hardened.
- Use caution when measuring the neck diameter and wall thickness to avoid miscalculations that could lead to unsafe sizing.

Instructions for Installation and Usage

1. Measuring Your Cartridge:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installing the Bushing:

- Ensure that your die is clean and free of debris.
- Insert the bushing into the die, ensuring it is seated properly.
- Check that the markings on the bushing are facing the correct direction for your intended use.

3. Using the Bushing:

- Proceed to size your cases according to standard reloading practices.
- Monitor the sizing process closely to ensure that the bushing is functioning correctly.

4. PostUse Inspection:

- After use, inspect the bushing for any signs of wear or damage.
- Clean the bushing and store it in a safe location.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste if it is deemed unsafe or hazardous.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the L.E. Wilson Steel Neck Sizer Die Bushing .287, please refer to the relevant product support channels. Always ensure you have the latest updates and information regarding product safety.

Thank you for prioritizing safety and for choosing our product!
