

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .311

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .311](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002405
- Mfr. No.: B-311
- Diameter (in): .311
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145025012

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .311 Safety Instructions

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .311. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read through this document carefully before using the product to understand potential hazards and how to avoid them.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always handle the neck sizing bushing with care to avoid injury.
- Keep the bushing out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for signs of wear or damage before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when using the bushing.
- If you experience any discomfort or notice any irregularities while using the product, discontinue use immediately and consult a professional.

Specific Safety Precautions for Use

• Potential Hazards:

- Sharp edges: The bushing may have sharp edges that can cause cuts.
- Improper sizing: Using the wrong size bushing can lead to inadequate neck tension, which may result in bullets not being held securely.

• Avoiding Hazards:

- Always measure the outside neck diameter or neck wall thickness accurately before selecting a bushing.
- When turning the bushing over for tighter sizing, ensure it is securely held to prevent slipping.
- Do not force the bushing into the case neck; if resistance is felt, reassess the size being used.

• AgeSpecific Warnings:

- This product is not intended for use by children. Adult supervision is required when used in environments where children are present.

Instructions for Installation and Usage

• Selecting the Correct Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003".
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

• Using the Bushing:

- Insert the bushing into the die, ensuring it is seated properly.
- If using the bushing with markings facing down, ensure it is securely positioned to avoid slipping during operation.

- When sizing, apply steady and even pressure to avoid damaging the brass or the bushing.

- **Cleaning and Maintenance:**

- After use, clean the bushing with a soft cloth to remove any brass residue.
- Store the bushing in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the bushing in accordance with local regulations.
- If the bushing is damaged or no longer usable, ensure it is disposed of in a manner that prevents accidental injury to others.

Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the contact point provided by the retailer or manufacturer. Always ensure that you have access to the latest safety information and product updates.

By following these safety instructions, you can ensure a safe and effective experience with the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .311. Thank you for your attention to these important guidelines.
