

# NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .256

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .256](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002424
- Mfr. No.: B-256
- Diameter (in): .256
- Delivery weight: 0.032kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024466

# NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .256 Safety Instructions

## Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .256. This guide provides essential safety instructions and usage guidelines to ensure your safe and effective use of this product. Please read this document carefully before using the bushing.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using the neck sizing bushing.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading components.
- Keep the bushing and all reloading equipment out of reach of children and unauthorized users.
- Inspect the bushing for any damage or wear before each use. Do not use if damaged.
- Follow all local laws and regulations regarding the use and storage of reloading equipment and materials.

## Specific Safety Precautions for Use

- Use the neck sizing bushing only for its intended purpose—sizing the necks of rifle cartridges.
- Never exceed the recommended size specifications as indicated on the bushing.
- When using the bushing, ensure that it is properly secured in the die to prevent slips or accidents during operation.
- If you experience excessive resistance while sizing, stop immediately and check for obstructions or misalignment.
- Be cautious when turning the bushing over for tighter sizing; this should only be done in emergency situations as described in the product text.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools including the L.E. Wilson Steel Neck Sizer Die, the neck bushing, and your reloading press.
- Ensure your workspace is clean and organized to prevent accidents.

### 2. Installation:

- Insert the neck sizing bushing into the die, ensuring it fits snugly.
- Secure the die into your reloading press according to the manufacturer's instructions.

### 3. Sizing Process:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" to select the correct bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
- Insert the case into the die and operate the press to size the neck.
- If necessary, turn the bushing over to achieve a tighter fit, but only as a last resort.

### 4. PostUsage:

- Remove the bushing from the die and clean it to prevent debris buildup.
- Store the bushing in a dry, safe place away from children and unauthorized users.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushing in regular household waste. Check with local authorities for proper disposal methods for metal components.

## Contact Information for Further Support

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .256, please contact the appropriate support channels as indicated on your purchase receipt or product packaging.

## Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .256. Always prioritize safety and compliance with local regulations when handling reloading equipment. Thank you for your attention to these important safety measures.
