

# NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .329

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .329](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002432
- Mfr. No.: B-329
- Diameter (in): .329
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145025197

# NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .329 Safety Instructions

## Introduction

Thank you for choosing the L.E. Wilson Steel Neck Sizer Die Bushing .329. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before use to understand the potential hazards and how to avoid them.

## General Safety Guidelines

- Ensure safe use of the product by following the manufacturer's instructions.
- Always inspect the bushing for any signs of damage before use.
- Use the bushing only for its intended purpose as specified in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware of potential hazards, including:
  - Injury from sharp edges of the bushing.
  - Incorrect sizing leading to improper neck tension, which may affect bullet seating.
- **Usage Conditions:** Use the bushing in a welllit and clean work area to minimize risks.
- **Protective Gear:** Wear appropriate safety gear, such as safety glasses and gloves, when handling the bushing.
- **Emergency Measures:** In case of injury or accidents, seek medical attention immediately.

## Instructions for Installation and Usage

- **Selecting the Right Bushing:**
  - Measure the outside neck diameter of your loaded cartridge.
  - Subtract .002" to .003" to achieve correct neck tension.
  - Alternatively, measure the neck wall thickness, multiply by two, add the bullet diameter, and subtract .002" to .003".
- **Installation:**
  - Ensure that the bushing is clean and free of debris before installation.
  - Insert the bushing into the die according to the manufacturer's instructions.
- **Usage:**
  - Use the bushing with the markings facing up for standard sizing.
  - For tighter sizing, turn the bushing over with the markings facing down, but only as an emergency measure.
- **PostUse:**
  - Clean the bushing after each use to maintain its integrity.
  - Store the bushing in a safe place to prevent damage.

## Disposal Instructions

- Dispose of the bushing in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, contact local waste management services for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or safety concerns regarding the L.E. Wilson Steel Neck Sizer Die Bushing .329, please refer to the manufacturer's support resources.

By following these safety instructions, you can ensure a safe and effective experience with your L.E. Wilson Steel Neck Sizer Die Bushing .329. Thank you for your attention to safety.
