

# NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .266

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .266](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002449
- Mfr. No.: B-266
- Diameter (in): .266
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024565

# NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .266 Safety Instructions

## Introduction

Thank you for choosing the L.E. Wilson Steel Neck Sizer Die Bushing .266. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before use to understand how to operate the bushing safely and responsibly.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling or using the neck sizing bushing.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for any signs of wear or damage before use. Do not use a damaged bushing.
- Follow all local laws and regulations regarding the use of reloading equipment and components.

## Specific Safety Precautions for Use

### • Hazard Identification:

- The neck sizing bushing may cause injury if not handled properly. Ensure that your hands are dry and free from oil or grease when handling.
- The bushing can create sharp edges; handle it with care to avoid cuts.

### • Avoiding Hazards:

- Do not force the bushing into the die or case; ensure it fits properly to avoid damage.
- Be cautious when turning the bushing over to achieve tighter sizing; this should only be done in emergency situations.
- Ensure that your workspace is clean and organized to prevent accidents.

### • Age Specific Warnings:

- This product is intended for use by adults or under adult supervision. Ensure that minors do not use this product without guidance.

## Instructions for Installation and Usage

### • Installation:

1. Ensure your reloading die is clean and free from debris.
2. Insert the neck sizing bushing into the die according to the manufacturer's instructions.
3. Secure the bushing in place, ensuring it is properly seated.

### • Usage:

1. Measure the outside neck diameter of your loaded cartridge. Subtract .002" to .003" to determine the correct bushing size.
2. Alternatively, measure the neck wall thickness of your case, multiply by two, add the bullet diameter, and subtract .002" to .003".

3. If the brass has hardened, you may turn the bushing over so the markings face down towards the case for a tighter fit.
4. Use a press to size the case neck, ensuring smooth operation without forcing the bushing.

## Disposal Instructions

- Dispose of the product in accordance with local regulations. Do not dispose of the bushing in regular household waste.
- Consider recycling options for metal components if available in your area.

## Contact Information for Further Support

For any inquiries regarding safety or usage of the L.E. Wilson Steel Neck Sizer Die Bushing .266, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your L.E. Wilson Steel Neck Sizer Die Bushing .266. Thank you for your attention to safety and responsible usage.
