

# NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .267

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .267](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002450
- Mfr. No.: B-267
- Diameter (in): .267
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 815145024572

# NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .267 Safety Instruction Guide

## Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .267. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read the entire guide carefully before using the product.

## General Safety Guidelines

- Ensure that this product is used only for its intended purpose, which is to size the necks of cartridge cases.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the bushing for wear or damage before each use. Do not use if damaged.
- Always wear appropriate safety gear, such as safety glasses, when using this product to protect against potential hazards.
- Store the product in a dry and secure location to prevent rust and damage.

## Specific Safety Precautions for Use

- Be cautious when handling sharp tools associated with reloading and sizing operations.
- Ensure that the bushing is correctly installed in the die before use to avoid malfunctions.
- Do not exceed the recommended sizing specifications as indicated by the manufacturer.
- If you experience difficulty while sizing, stop immediately and assess the situation. Do not force the bushing.
- If the brass has hardened, consider turning the bushing over for tighter sizing, but only as an emergency measure.
- Always check the neck tension of your loaded cartridges to ensure proper fit and safety.

## Instructions for Installation and Usage

### 1. Installation:

- Carefully remove the bushing from its packaging.
- Inspect the bushing for any visible defects or damage.
- Insert the bushing into the neck sizer die, ensuring it is seated securely.
- Adjust the die according to the manufacturer's instructions to ensure proper alignment.

### 2. Usage:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for optimal sizing.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the bullet diameter, and subtract .002" to .003".
- Begin the sizing process slowly, monitoring the resistance and ensuring proper neck tension.
- After sizing, inspect the cartridge for any signs of damage or improper fit before proceeding with loading.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw the product in regular household waste. Check with local waste management authorities for

proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .267, please refer to the manufacturer's contact information provided on the packaging or their official website.

## **Conclusion**

Following these safety instructions will help ensure a safe and effective reloading experience. Always prioritize safety and do not hesitate to seek assistance if you have any doubts or questions regarding the use of this product. Thank you for your attention to these important guidelines.
