

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .268

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .268](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002465
- Mfr. No.: B-268
- Diameter (in): .268
- Delivery weight: 0.032kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024589

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .268 Safety Instructions

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .268. This product is designed to provide precision sizing for case necks in reloading applications. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always ensure that you are using the product in accordance with the manufacturer's instructions.
- Inspect the bushing for any signs of damage or wear before each use. Do not use damaged bushings.
- Keep the product out of reach of children and unauthorized users.
- Store the bushing in a safe, dry place to prevent damage and maintain its integrity.
- Be aware of the potential hazards associated with using reloading equipment and take appropriate precautions.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):**

- Always wear safety glasses to protect your eyes from debris.
- Use hearing protection if operating equipment that may produce loud noises.

- **Handling and Use:**

- Handle the bushing with care to avoid injury.
- Ensure that the bushing is properly seated in the die before use.
- Do not exceed the recommended sizing specifications to avoid damaging the brass or the bushing.
- If you experience excessive resistance during sizing, stop and inspect the bushing and the case.

- **Emergency Situations:**

- If the bushing becomes stuck, do not force it out. Follow the manufacturer's troubleshooting guidelines.
- In case of injury, seek medical attention immediately.

Instructions for Installation and Usage

1. Preparation:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the appropriate bushing size.

2. Installation:

- Insert the bushing into the neck sizing die, ensuring it is seated properly.
- If finetuning is required, you may turn the bushing over with the markings facing down.

3. Usage:

- Place the case in the shell holder of your reloading press.

- Raise the ram to bring the case into contact with the bushing.
- Apply steady pressure to size the neck of the case.
- Inspect the sized neck for proper tension and fit.

4. PostUse:

- Clean the bushing after each use to remove any debris or brass residue.
- Store the bushing in its original packaging or a designated storage area to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushing in regular household waste if it is made from materials that require special handling.

Contact Information for Further Support

For safety inquiries or further assistance regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .268, please consult the manufacturer's contact resources or your local distributor.

Please remember to follow these guidelines to ensure safe and effective use of your NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .268. Your safety is our priority.
