

# SINCLAIR O-RING ROD GUIDES FOR 6MM/6.5MM-284 WINCHESTER - SINCLAIR INTERNATIONAL O-RING ROD GUIDE, 6MM/6.5MM - 284 WINCHESTER, 0.65" DIAMETER

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

Our Centerfire Cleaning Rod Guides are designed to insert into your action in place of your bolt or bolt carrier. They feature a snout with a silicone "O"-ring that inserts into your chamber, sealing the barrel off from the receiver. The "O"-ring prevents solvents from leaking back into the action area and gumming up the trigger assembly. We currently stock "O"-ring rod guides for over 1000 different action/cartridge combinations. Each rod guide is machined to fit specific actions and cartridge families from .17 up to .338 caliber. Unfortunately some rifle chamberings do not lend themselves to an "O"-ring style rod guide, for these cartridges we recommend one of our Adjustable Cone Style Rod Guides. In an effort to better serve the cleaning needs of our customers, we have upgraded our Sinclair "O"-ring rod guides to include integral solvent ports. This upgrade is now included with every centerfire bolt action rod guide and nearly all AR style rod guides. If you prefer a rod guide without an integral solvent port, please contact us via e-mail or phone and we will happily provide you with a rod guide to your liking. These rod guides without solvent ports will be treated as semi-custom, so please allow 2-4 weeks for delivery of rod guides without solvent ports. There is no additional charge for rod guides without integral solvent ports.

# Safety Instruction Guide for SINCLAIR ORING ROD GUIDES

## Introduction

Thank you for choosing the SINCLAIR ORING ROD GUIDES. This product is designed to enhance your cleaning process for firearms chambered in 6MM and 6.5MM284 Winchester. To ensure your safety and the proper use of this product, please read this guide carefully. It contains important information regarding safe usage, installation, and disposal.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- If you notice any defects or malfunctions, discontinue use immediately and contact a qualified professional.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before inserting the rod guide.
- Do not use the rod guide with damaged or excessively worn components.
- Avoid using solvents that are not recommended for use with this product.
- Use appropriate personal protective equipment (PPE) when handling cleaning solvents.
- Ensure proper ventilation when using cleaning solvents to avoid inhalation of fumes.
- Do not attempt to modify the rod guide in any way, as this may compromise safety.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that the firearm is completely unloaded.
- Gather all necessary cleaning supplies and ensure a clean workspace.

### 2. Installation

- Remove the bolt or bolt carrier from the action of the firearm.
- Take the SINCLAIR ORING ROD GUIDE and insert the silicone "O"ring snout into the chamber.
- Ensure that the "O"ring creates a proper seal to prevent solvents from leaking back into the action area.

### 3. Usage

- Attach the cleaning rod to the rod guide securely.
- Insert the cleaning rod into the barrel and proceed with the cleaning process as recommended.
- Monitor the cleaning process and ensure that the rod guide remains properly seated in the chamber.

### 4. PostUsage

- After cleaning, carefully remove the rod guide from the chamber.
- Clean and inspect the rod guide for any residue or damage.
- Store the rod guide in a safe and dry location.

## **Disposal Instructions**

- Dispose of any cleaning solvents and materials following local regulations.
- If the rod guide is damaged beyond repair, it should be disposed of in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of SINCLAIR ORING ROD GUIDES, please reach out to the appropriate support channels provided by the manufacturer.

Thank you for prioritizing safety while using our products. Your adherence to these guidelines helps ensure a safe and effective cleaning experience.
