# Safety Instruction Guide for SEATER DIES

## REDDING SEATER DIE 6MM REMINGTON

### Introduction

Thank you for choosing the Redding Seating Die for your reloading needs. This guide aims to provide important safety instructions to ensure safe and effective use of the die. Please read this guide thoroughly before using the product.

### General Safety Guidelines

- Ensure that you are familiar with the basic principles of reloading ammunition and the specific requirements for using this die.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Keep the die and all reloading components out of reach of children and unauthorized individuals.
- Inspect the die for any damage or wear before each use. If you notice any issues, discontinue use immediately and contact a qualified technician.
- Follow all local, state, and national laws regarding ammunition reloading and storage.

### Specific Safety Precautions for Use

- Handle all components with care to avoid injury.
- Ensure that your work area is clean and free from distractions when reloading.
- Do not exceed the recommended load specifications for the 6 mm Remington cartridge.
- Always verify that the die is properly set up before beginning the reloading process.
- Use only compatible components with the Redding Seating Die to avoid malfunctions.
- Do not modify the die or any of its components, as this may result in unsafe conditions.
- If you experience any unusual sounds or resistance during operation, stop immediately and inspect the die for any issues.

### Instructions for Installation and Usage

#### 1. Installation:

- Securely mount the die into your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened to prevent movement during operation.
- Adjust the die to the desired seating depth based on your reloading specifications.

#### 2. Usage:

- Prepare your brass cases by cleaning and resizing them before using the seating die.
- Insert the appropriate bullet into the case mouth.
- Raise the ram of the press to seat the bullet. Monitor the operation to ensure smooth functioning.
- After seating, lower the ram and inspect the completed round for proper seating depth.
- If crimping is required, adjust the die accordingly and repeat the process.

### Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not throw the die in regular household waste. Instead, contact your local waste disposal authority for guidance on proper disposal methods.
- Ensure that all reloading components are disposed of safely to prevent environmental contamination.

## **Contact Information for Further Support**

For any questions or concerns regarding the Redding Seating Die, please refer to the manufacturer's website or contact your local distributor for assistance.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with the SEATER DIES REDDING SEATER DIE 6MM REMINGTON. Always prioritize safety and compliance with regulations to protect yourself and others. Thank you for your attention to these important guidelines.
