

# SINCLAIR CARBIDE VLD CASE MOUTH CHAMFERING TOOL - VLD (VERY LOW DRAG) CHAMFERING TOOL

[Reloading](#) > [Case Preparation](#) > [Case Mouth Chamfering](#)

This chamfering tool features a removable 28 degree carbide cutter mounted in our large, comfortable Sinclair handle. Intended to prepare cases for VLD or boat tail bullets, but works fine for flat base bullets. Also works great on lead bullets - will not shave the base. When prepping large volumes of cases we use the power adapter in the Sinclair Power Center or with a power screwdriver. Will work on 14 caliber thru 45 caliber cases.

# Safety Instruction Guide for Sinclair Carbide VLD Case Mouth Chamfering Tool

## Introduction

Thank you for choosing the Sinclair Carbide VLD Case Mouth Chamfering Tool. This tool is designed to prepare cases for VLD (Very Low Drag) or boat tail bullets and is suitable for a variety of bullet types. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the tool.
- Inspect the tool before each use. Do not use it if any part is damaged or worn.
- Store the tool in a dry and secure location when not in use.
- Be aware of your surroundings and ensure a safe working environment.

## Specific Safety Precautions for Use

- **Risk of Injury:** The carbide cutter is sharp. Handle with care to avoid cuts or injuries.
- **Power Tools:** When using the tool with a power adapter or screwdriver, ensure that the power source is compatible and that the tool is securely attached.
- **Dust and Debris:** When chamfering cases, fine particles may be generated. Use a dust mask if necessary to avoid inhalation.
- **Proper Handling:** Always hold the tool by the handle and avoid placing fingers near the cutter when in use.
- **Case Compatibility:** This tool works on 14 caliber through 45 caliber cases. Do not attempt to use it on cases outside this range.

## Instructions for Installation and Usage

### 1. Preparation for Use:

- Ensure the work area is clean and welllit.
- Gather all necessary materials including the Sinclair Carbide VLD Case Mouth Chamfering Tool, cases to be chamfered, and any power tools if applicable.

### 2. Using the Tool:

- Hold the Sinclair handle firmly.
- Align the case mouth with the carbide cutter.
- Apply gentle pressure and rotate the case to chamfer the mouth evenly.
- If using a power screwdriver, attach the tool securely and follow the manufacturer's instructions for operation.

### 3. Cleaning and Maintenance:

- After use, clean the tool with a soft brush to remove any debris.
- Store the tool in its original packaging or a safe location to prevent damage.

## Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- If the tool is damaged beyond repair, ensure that it is disposed of safely to prevent injury or environmental harm.

## Contact Information for Further Support

For any questions or concerns regarding the safety and use of the Sinclair Carbide VLD Case Mouth Chamfering Tool, please refer to the manufacturer's contact information provided with the product packaging.

**Important Note:** Always stay informed about product recalls or safety advisories through the EU's Safety Gate platform. Report any unsafe products or incidents to local authorities to help maintain safety standards.

Thank you for prioritizing safety while using the Sinclair Carbide VLD Case Mouth Chamfering Tool. Your adherence to these guidelines ensures a safe and effective experience.
