

FULL LENGTH DIE SETS - RCBS FULL LENGTH 2-DIE SET 30-06 SPRINGFIELD

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

Attributes

- Name: [RCBS FULL LENGTH 2-DIE SET 30-06 SPRINGFIELD](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004632
- Mfr. No.: 14801
- Cartridge: 30-06 Springfield
- Die Style: Full Length Sizing Dies
- Delivery weight: 0.249kg
- Shipping height: 41mm
- Shipping width: 58mm
- Shipping length: 135mm
- UPC: 076683148018

Safety Instruction Guide for RCBS Full Length 2Die Set 3006 Springfield

Introduction

Thank you for choosing the RCBS Full Length 2Die Set for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of your die set. Please read this document thoroughly before using the product.

General Safety Guidelines

- Always handle reloading equipment with care.
- Ensure that your workspace is clean and organized.
- Wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Keep all reloading components, including primers and powders, out of reach of children and pets.
- Follow all manufacturer instructions and guidelines when using the die set.
- Regularly inspect your equipment for wear or damage before use.

Specific Safety Precautions for Use

- **Proper Lubrication:** Ensure that cases are lubricated before fulllength sizing to prevent stuck cases in the die.
- **Use a Headspace Gauge:** Utilize a cartridge headspace gauge tool to confirm the correct shoulder bump.
- **Adjusting the Die:** Make gradual adjustments to the die position in the press to avoid oversizing cases.
- **Decapping Spent Primers:** Handle spent primers carefully to avoid accidental ignition.
- **Crimping:** If crimping is desired, adjust the seater die accordingly to ensure proper bullet retention.
- **Storage:** Store the die set in a dry, cool place, away from moisture and extreme temperatures.

Instructions for Installation and Usage

1. Setup:

- Secure the press to a stable workbench.
- Install the fulllength sizing die into the press according to the manufacturer's instructions.
- Adjust the die height to achieve the desired shoulder bump using a headspace gauge.

2. Sizing Cases:

- Apply lubricant to the outside of the case before inserting it into the die.
- Operate the press to size the case fully.
- Remove the sized case and inspect for proper sizing.

3. Seating Bullets:

- Install the seater die into the press.
- Adjust the seater die to the desired bullet seating depth.
- Place a bullet on top of the case and operate the press to seat the bullet.

4. Crimping (if applicable):

- If crimping is required, adjust the seater die to the desired crimp setting.
- Operate the press to crimp the bullet into the case.

5. Regular Maintenance:

- Clean the dies regularly to prevent buildup of residue.
- Check for wear and replace any damaged components as necessary.

Disposal Instructions

- Dispose of any spent primers, powder, and other reloading materials according to local regulations.
- Do not dispose of reloading components in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the RCBS Full Length 2Die Set, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your RCBS Full Length 2Die Set. Always prioritize safety and consult this guide whenever you have questions about the use of your equipment. Happy reloading!
