

GRX PUSH THRU BASE SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

This Push Thru die is designed to completely eliminate bulges near the case base, common in 40 S&W brass. By passing the case completely through the dies, the bulge is removed and the brass may be returned to service. The GRX die is currently only available for 40 S&W.

Redding GRX Push Thru Base Sizing Die Safety Instructions

Introduction

Thank you for choosing the Redding GRX Push Thru Base Sizing Die. This product is designed to enhance the reloading process by effectively eliminating bulges near the case base, particularly in 40 S&W brass. To ensure your safety and the proper functioning of the die, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the die in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free from obstructions before starting any reloading activities.
- Use protective eyewear when operating the die to prevent injury from potential debris or brass fragments.
- Keep the work area wellventilated to avoid inhalation of any dust or particles generated during the resizing process.
- Store the die in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the die for wear or damage. Do not use if any parts are broken or malfunctioning.

Specific Safety Precautions for Use

- Ensure that the die is compatible with 40 S&W brass only.
- Do not attempt to resize cases that are damaged or excessively worn.
- Avoid wearing loose clothing or jewelry that may get caught in the equipment during operation.
- Always use the die with the appropriate reloading press as specified by the manufacturer.
- Do not exceed the recommended load specifications for the cases being resized.
- Be cautious of hot surfaces and materials, as resized brass may be warm to the touch.

Instructions for Installation and Usage

1. Installation:

- Clean the reloading press before installation.
- Securely attach the Redding GRX Push Thru Base Sizing Die to the press according to the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened to prevent movement during operation.

2. Usage:

- Prepare the brass cases by cleaning them to remove any dirt or debris.
- Insert the brass case into the die, ensuring it is fully seated.
- Operate the reloading press to push the case through the die. Ensure a smooth and steady motion.
- After resizing, remove the case from the die and inspect it for any defects.
- Store resized cases in a safe and organized manner until they are ready for loading.

Disposal Instructions

- Dispose of any damaged or unusable brass cases in accordance with local regulations.
- Recycle brass whenever possible. Check with local recycling facilities for proper procedures.
- Do not dispose of the die in regular household waste. Contact local authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Redding GRX Push Thru Base Sizing Die, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to safety and for choosing Redding products.
