

COMPETITION BUSHING NECK DIES - COMPETITION BUSHING NECK DIE 30-06 SPRINGFIELD

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

Attributes

- Name: COMPETITION BUSHING NECK DIE 30-06 SPRINGFIELD

Safety Instruction Guide for Competition Bushing Neck Die 3006 Springfield

Introduction

Thank you for choosing the Competition Bushing Neck Die 3006 Springfield by Redding. This product is designed for precision reloading and is intended for use by competition shooters. To ensure your safety and the proper functioning of the die, please read and follow the safety instructions provided in this guide.

General Safety Guidelines

- Always read the product instructions thoroughly before use.
- Keep the die and its components out of reach of children and vulnerable individuals.
- Inspect the die for any signs of damage or wear before each use.
- Use the die only for its intended purpose as specified in the product instructions.
- Wear appropriate safety gear, such as safety glasses, when operating the die.
- Do not modify the die or its components in any way.
- Report any unsafe product conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the die is properly mounted in a compatible reloading press before use.
- Do not force the cartridge case into the die; ensure proper alignment before resizing.
- Avoid placing your hands or any body parts near the moving parts of the die during operation.
- Use only the recommended bushings and shellholders for this die; other components may not fit properly and could lead to injury.
- Do not attempt to resize damaged or excessively worn cartridge cases.
- Follow all local laws and regulations regarding ammunition reloading and safety.

Instructions for Installation and Usage

1. Installation:

- Securely mount the Competition Bushing Neck Die in a compatible reloading press.
- Ensure that the die is tightened properly to prevent any movement during use.

2. Usage:

- Insert the cartridge case into the sliding sleeve of the die.
- Adjust the micrometer to the desired neck length to be sized.
- Begin the sizing process by operating the reloading press slowly and steadily.
- Ensure that the cartridge case is fully supported throughout the resizing process.
- After resizing, remove the cartridge case from the die and inspect it for any defects.

Disposal Instructions

- Dispose of any damaged or worn components of the die in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the die or its components in regular household waste.

Contact Information for Further Support

For any inquiries regarding the safety and use of the Competition Bushing Neck Die, please refer to the official Redding website or contact your local distributor. Always ensure that you have the most current information regarding product recalls and safety updates.

Thank you for prioritizing safety and compliance while using your Competition Bushing Neck Die. Enjoy your reloading experience!
