

SINCLAIR REDDING DIE LOCK RING PLIERS - DIE LOCK RING PLIERS FOR HORNADY & LEE PRECISION

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

These machined aluminum split pliers are designed to loosen Redding dies when screwed into the press. These pliers fit the die body lock ring, which frequently is in a jammed fit with the die and the top of the reloading press. The smaller hole fits the smaller knurled lock nut on top of the reloading die that locks down the decapping assembly. The contoured fit of these pliers prevents the damage we routinely see on lock rings from handloaders using adjustable pliers.

SINCLAIR REDDING DIE LOCK RING PLIERS Safety Instruction Guide

Introduction

Thank you for choosing the Sinclair Redding Die Lock Ring Pliers. These pliers are designed to assist in loosening Redding dies that may be jammed in the reloading press. This safety instruction guide provides essential information to ensure the safe and effective use of this product.

General Safety Guidelines

- Always read and understand this safety guide before using the product.
- Keep the pliers out of reach of children and vulnerable individuals.
- Inspect the pliers for any damage before each use. Do not use if damaged.
- Use the pliers only for their intended purpose as described in this guide.
- Store the pliers in a safe place when not in use to prevent accidents.

Specific Safety Precautions for Use

- Ensure that the die is securely attached to the press before attempting to use the pliers.
- Do not apply excessive force when using the pliers, as this may cause damage to the die or the pliers.
- Avoid using the pliers on any other components that are not specifically designed for use with Redding dies.
- Wear protective eyewear to safeguard against any potential debris or injury during use.
- Keep hands clear of the operating area when using the pliers to prevent pinching or injury.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials. Ensure the workspace is clean and welllit.
- Inspect the pliers for any signs of wear or damage.

2. Using the Pliers

- Position the pliers around the die body lock ring.
- Use the larger hole for the die body lock ring and the smaller hole for the knurled lock nut.
- Apply a gentle, steady pressure to loosen the die. If the die does not loosen, reassess the position of the pliers and try again.
- Once the die is loosened, remove the pliers carefully to avoid any sudden movements.

3. After Use

- Clean the pliers to remove any residue or debris.
- Store the pliers in a safe location, away from children and pets.

Disposal Instructions

- Dispose of the pliers responsibly at the end of their life cycle.
- Check local regulations for guidelines on disposing of metal products.
- Do not dispose of the pliers in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or usage of the Sinclair Redding Die Lock Ring Pliers, please refer to the product packaging for contact information.

Conclusion

By following these safety guidelines and instructions, you can ensure the safe and effective use of the Sinclair Redding Die Lock Ring Pliers. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention and safe reloading practices!
