

L.E. WILSON STAINLESS MICRO TRIMMER & PLATFORM KIT - SINCLAIR/L.E. WILSON CASE TRIMMER KIT WITH MICROMETER & PLATFORM, STAINLESS

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Case Trimmers](#)

Trimmer Platform The idea for this platform originated from a writer/customer of ours. The platform is a mounting board for the L.E. Wilson trimmer series that provides storage space for nine (9) case holders and a tapping block for knocking the cases out of the holder. The polyethylene platform has rubber feet, but most of us prefer it c-clamped to the bench. L.E. Wilson Stainless Micrometer Trimmer with Stand The L.E. Wilson Stainless Micro Trimmer utilizes the most accurate trimmer in the world in its stainless steel configuration, an exclusive Sinclair International product. The compact micrometer unit is incorporated into the stop bearing which allows the user to easily make quick trim adjustments in .001" increments. The L.E. Wilson Stainless Micro trimmer uses a case holder that holds the case by the body taper and utilizes no pilots during the case trimming operation. Trimmer case holder, cutter housing, and adjustment stop sit in perfect alignment with each other. This guarantees an identical trim length for each case. When trimming cases shorter than 1.3" such as pistol cases, the use of a spacer (part number WX11) is necessary. The L.E. Wilson Stainless Micro Trimmer sets on top of our Sinclair Mounting Stand with Shark Fin Clamp. The Shark Fin enables the user to quickly trim and exchange cases in the case holder. All of our L.E. Wilson trimmer accessories work with the New L.E. Wilson Stainless Micro Trimmer. Visit our website, catalog, or call our reloading technicians to order trimmer case holders and other accessories. * Trimmer Case Holders and accessories sold separately.

Attributes

- Name: [SINCLAIR/L.E. WILSON CASE TRIMMER KIT WITH MICROMETER & PLATFORM, STAINLESS](#)
- Manufacturer: [SINCLAIR/L.E. WILSON](#)

Safety Instruction Guide for L.E. Wilson Stainless Micro Trimmer & Platform Kit

Introduction

Thank you for choosing the L.E. Wilson Stainless Micro Trimmer & Platform Kit. This guide provides important safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before use and keep it for future reference.

General Safety Guidelines

- Ensure the product is used according to the manufacturer's instructions to avoid accidents and injuries.
- Always inspect the trimmer and platform for any signs of damage before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product in a welllit and clutterfree environment to minimize risks.
- Wear appropriate personal protective equipment (PPE) such as safety glasses to protect your eyes from debris.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the trimmer with the compatible case holders designed for this product.
- Avoid wearing loose clothing or jewelry that could get caught in the trimmer during operation.
- Ensure that all adjustments are secure before starting the trimming process.
- Do not attempt to modify the trimmer or platform in any way, as this may compromise safety.
- When trimming cases shorter than 1.3 inches, always use the specified spacer (part number WX11) to prevent damage and ensure accuracy.
- Always handle the trimmer and platform with care to avoid injury.

Instructions for Installation and Usage

Installation

1. **Unpack the Product:** Carefully remove the trimmer and platform from the packaging. Check for any missing parts.
2. **Set Up the Platform:** Place the polyethylene platform on a stable workbench. For added stability, use cclamps to secure it in place.
3. **Attach the Trimmer:** Position the L.E. Wilson Stainless Micro Trimmer on top of the mounting stand. Ensure it is firmly secured.
4. **Adjust the Micrometer:** Familiarize yourself with the micrometer unit. Make sure it is functioning correctly and can make adjustments in .001" increments.

Usage

1. **Select the Case Holder:** Choose the appropriate case holder for the case you will be trimming.
2. **Insert the Case:** Place the case into the holder, ensuring it is seated securely by the body taper.
3. **Make Adjustments:** Use the micrometer to set the desired trim length. Ensure the adjustment stop is aligned properly.
4. **Trim the Case:** Carefully operate the trimmer to cut the case. Maintain a steady hand and clear the area of any obstructions.
5. **Remove the Case:** Use the tapping block to gently knock the trimmed case out of the holder.
6. **Store the Equipment:** After use, store the trimmer and platform in a safe, dry location. Ensure all accessories are accounted for.

Disposal Instructions

- Dispose of the trimmer and platform according to local regulations.
- Do not dispose of the product in regular household waste.
- If the product is no longer usable, consider recycling parts where applicable.

Contact Information for Further Support
