

FLAT BULLET SEATING MICROMETER - REDDING #15 FLAT BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Bullet Seating Micrometers are for use with most standard Redding Seating Dies and provide a direct replacement for the original seat plug. They provide a direct replacement for the original seat plugs and can easily be changed from one die to another. Redding Bullet Seating Micrometers for bottleneck cartridges are available for traditional bullet shapes (STD) and for VLD bullet shapes (VLD). They are also available for handgun and straight wall cartridges with traditional bullet shapes (STD) and flat nose bullet designs (FLAT).

FLAT BULLET SEATING MICROMETER SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the Redding Flat Bullet Seating Micrometer. This product is designed to enhance your reloading experience by providing precise bullet seating for bottleneck cartridges and straight wall cartridges. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always handle reloading equipment with care to avoid accidents.
- Keep the micrometer and all reloading components out of reach of children.
- Regularly inspect the micrometer for any signs of wear or damage before use.
- Store the micrometer in a dry, safe place to prevent corrosion or damage.
- Be aware of your surroundings when using this product to prevent accidents.

Specific Safety Precautions for Use

- Always wear safety glasses when reloading to protect your eyes from debris.
- Do not exceed the maximum load specifications for your cartridges.
- Ensure that the seating die is properly secured in your reloading press before use.
- Avoid wearing loose clothing or jewelry that could become caught in the reloading equipment.
- Do not attempt to modify or disassemble the micrometer.
- If you notice any irregularities during use, stop immediately and inspect the equipment.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is turned off and unplugged.
- Remove the existing seat plug from your Redding Seating Die.
- Select the appropriate Redding Bullet Seating Micrometer for your bullet type (STD or VLD).
- Insert the micrometer into the die, ensuring it is securely fitted.
- Adjust the micrometer to the desired seating depth according to your reloading specifications.

2. Usage:

- Prepare your cartridges and ensure they are clean and free of debris.
- Place a bullet into the case mouth and position it under the micrometer.
- Slowly and steadily operate the reloading press to seat the bullet.
- Check the seating depth using the micrometer's scale for accuracy.
- Repeat the process for each cartridge, making adjustments as necessary.

3. PostUse:

- After use, clean the micrometer to remove any residue.
- Store the micrometer in its protective case to avoid damage.

Disposal Instructions

- Dispose of the micrometer in accordance with local regulations.
- If the micrometer is damaged or no longer usable, consider recycling the materials where possible.
- Do not dispose of the micrometer in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Redding Flat Bullet Seating Micrometer, please refer to the manufacturer's contact information provided with your product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with your Redding Flat Bullet Seating Micrometer. Always prioritize safety and be informed about the proper use of your equipment. Thank you for your attention to these important guidelines.
