

FLAT BULLET SEATING MICROMETER - REDDING #16 FLAT BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Bullet Seating Micrometers are for use with most standard Redding Seating Dies and provide a direct replacement for the original seat plug. They provide a direct replacement for the original seat plugs and can easily be changed from one die to another. Redding Bullet Seating Micrometers for bottleneck cartridges are available for traditional bullet shapes (STD) and for VLD bullet shapes (VLD). They are also available for handgun and straight wall cartridges with traditional bullet shapes (STD) and flat nose bullet designs (FLAT).

Safety Instruction Guide for FLAT BULLET SEATING MICROMETER REDDING #16

Introduction

Thank you for choosing the Redding Flat Bullet Seating Micrometer #16. This product is designed to provide precision seating for various bullet shapes and is compatible with most standard Redding Seating Dies. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- **Product Safety:** Always ensure that the micrometer is used in accordance with the instructions provided. This product is designed for safe use when handled properly.
- **Enhanced Recalls:** In the unlikely event of a safety issue, recall notices will be provided, and remedies will be offered free of charge.
- **Online Shopping Safety:** When purchasing online, ensure that the seller adheres to safety regulations similar to those in physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For any safety inquiries, refer to the appropriate EU contact point provided by the manufacturer.
- **Rapid Alerts:** Stay informed about product safety updates through the Safety Gate system.

Specific Safety Precautions for Use

- **Compatibility:** Ensure the micrometer is compatible with your specific Redding Seating Die before use.
- **Handling:** Always handle the micrometer with care to avoid damage. Do not apply excessive force when adjusting settings.
- **Inspection:** Regularly inspect the micrometer for any signs of wear or damage. Do not use if damaged.
- **Environment:** Use the micrometer in a clean, dry environment free from excessive dust and moisture.
- **Personal Safety:** Wear safety glasses and gloves while using the micrometer to protect against any potential hazards.

Instructions for Installation and Usage

1. Installation:

- Ensure that the seating die is securely mounted in your reloading press.
- Remove the original seat plug from the seating die.
- Insert the Redding Flat Bullet Seating Micrometer into the die, ensuring it fits snugly.
- Secure the micrometer in place according to the die's specifications.

2. Usage:

- Adjust the micrometer to the desired bullet seating depth by turning the adjustment knob.
- Place the bullet into the die and operate the press to seat the bullet.
- Check the seating depth using a caliper to ensure accuracy.
- If adjustments are needed, repeat the adjustment process until the desired depth is achieved.

Disposal Instructions

- Dispose of the micrometer in accordance with local regulations for electronic waste and metal products.
- Do not dispose of the micrometer in regular household waste.

- Consider recycling options for the materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the Redding Flat Bullet Seating Micrometer #16, please refer to the manufacturer's customer support resources available on their website or through your point of purchase.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
