

WILSON CASE GAGE - L.E. WILSON 6 XC CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder.
SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [L.E. WILSON 6 XC CASE GAGE](#)
- Manufacturer: [L.E. WILSON, INC.](#)
- Product no.: 749058029
- Mfr. No.: CG-6XC
- Cartridge: 6 mm XC
- Delivery weight: 0.136kg
- Shipping height: 30mm
- Shipping width: 36mm
- Shipping length: 89mm
- UPC: 857949005883

WILSON CASE GAGE Safety Instruction Guide

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 6 XC CASE GAGE. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide thoroughly before using the case gage.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the case gage by following all instructions. This product is designed for nonfood use and should be handled with care.
- **Enhanced Recalls:** Stay informed about product recalls. If this product is found to be unsafe, a standardized recall notice will be issued.
- **Online Shopping:** If purchased online, be aware that the same safety protections apply as for products bought in physical stores.
- **Special Consumer Focus:** This product is intended for adult users. Keep it out of reach of children to prevent accidental use.
- **EU Contact Point:** For any safety inquiries, please contact the designated EU-based support team.
- **Rapid Alerts:** Check for updates on unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:** Improper use may lead to inaccurate measurements, resulting in unsafe reloading practices. Sharp edges may cause cuts or injuries if handled carelessly.
- **Avoiding Hazards:** Always handle the case gage with clean, dry hands. Do not use the gage if it is damaged or shows signs of wear. Ensure the gage is used in a stable and secure environment to prevent accidents.

Instructions for Installation and Usage

- **Setting Up the Case Gage:**

1. Ensure that your workspace is clean and free from clutter.
2. Inspect the case gage for any visible damage before use.

- **Using the Case Gage:**

1. Insert the cartridge case into the gage until it is fully seated.
2. Check the overall length of the case to determine if trimming is necessary.
3. Use a caliper to measure headspace accurately.
4. For adjustable styles, ensure that the resizing is minimal at the shoulder for belted magnums.

- **PostUse Care:** Clean the gage after use to maintain its accuracy and longevity. Store the gage in a safe and dry place away from children.

Disposal Instructions

- **Disposal of the Product:** Dispose of the case gage according to local regulations. Do not dispose of the product in regular household waste if it is considered hazardous. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the WILSON CASE GAGE, please reach out to the designated support team in your region. They will be able to assist you with any safety inquiries or productrelated questions.

By following these guidelines, you can ensure the safe and effective use of your WILSON CASE GAGE L.E. WILSON 6 XC CASE GAGE. Thank you for your attention to safety.
