

CONTOUR #5 BARREL - SHILEN 22 CALIBER 1-9 TWIST #5 CHROME MOLY BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

Contour #5 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Safety Instruction Guide for CONTOUR #5 BARREL SHILEN 22 CALIBER 19 TWIST #5 CHROME MOLY BARREL

Introduction

Thank you for choosing the CONTOUR #5 BARREL SHILEN 22 CALIBER 19 TWIST #5 CHROME MOLY BARREL. This guide provides essential safety instructions to ensure the safe use, installation, and disposal of this product. It is important to read and understand these guidelines to prevent accidents and ensure optimal performance.

General Safety Guidelines

- **Product Safety:**

- Ensure that the barrel is used in accordance with the manufacturer's specifications.
- Always handle firearms with care and follow all safety protocols.

- **Enhanced Recalls:**

- Be aware of any recall notices related to this product. Ensure that you are informed about any safety updates.

- **Online Shopping:**

- When purchasing online, ensure that you are buying from a reputable seller who meets all safety requirements.

- **Special Consumer Focus:**

- Extra caution should be taken when this product is used by or around vulnerable groups, such as children.

- **EU Contact Point:**

- For any safety inquiries, refer to the provided contact information for your supplier.

- **Rapid Alerts:**

- Stay informed about any updates on unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before installing or handling the barrel.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling the barrel.
- Do not attempt to modify the barrel or its components.
- Ensure that the barrel is properly installed by a qualified gunsmith to avoid any accidents during use.
- Regularly inspect the barrel for signs of wear or damage. If any issues are detected, cease use immediately and consult a professional.
- Keep the barrel and all firearms out of reach of children and unauthorized users.

Instructions for Installation and Usage

- **Installation:**

- Ensure that you have the necessary tools and a clean, welllit workspace.
- Confirm that the firearm is completely unloaded.
- Remove the existing barrel according to the manufacturer's instructions.
- Carefully install the CONTOUR #5 BARREL, ensuring that it is securely fastened.
- Doublecheck that all components are properly aligned and tightened.
- Consult a qualified gunsmith if you are unsure about the installation process.

- **Usage:**

- Always follow the manufacturer's guidelines for safe operation of the firearm.
- Regularly clean the barrel to maintain optimal performance and prevent corrosion.
- Ensure that you are using appropriate ammunition for the .22 caliber barrel.
- Be aware of your surroundings and ensure a safe shooting environment at all times.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding metal and firearm component disposal.
- If the barrel is damaged or no longer usable, consult with a local waste management facility for proper disposal methods.
- Do not dispose of the barrel in regular household waste.

Contact Information for Further Support

For any safety inquiries, product support, or concerns regarding the CONTOUR #5 BARREL, please refer to the contact information provided by your supplier.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
