

CONTOUR #7, 8 & 9 BARREL - SHILEN CONTOUR #7 .224, 12 TWIST, CM

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contours #7, 8 & 9 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope in- spected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN CONTOUR #7 .224, 12 TWIST, CM](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787224127
- Mfr. No.: 22127CM
- Caliber: 22 Caliber (.223-.224)
- Contour: #7
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-12
- Delivery weight: 3.18kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 720mm

Safety Instruction Guide for CONTOUR #7, 8 & 9 BARREL SHILEN CONTOUR #7 .224, 12 TWIST, CM

Introduction

Thank you for choosing the CONTOUR #7, 8 & 9 BARREL SHILEN CONTOUR #7 .224, 12 TWIST, CM. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the barrel and keep it for future reference.

General Safety Guidelines

- Ensure that all users of this product are aware of and understand the safety guidelines.
- Always handle firearms and associated components with care and responsibility.
- Store the barrel in a secure location, away from unauthorized users, especially children.
- Regularly inspect the barrel for any signs of damage or wear before use.
- Do not use the barrel if it shows any signs of defects or if it has been altered in any way.
- Follow all local laws and regulations regarding the use of firearms and firearm components.

Specific Safety Precautions for Use

- Only use the barrel with compatible firearms that are designed for the specified caliber (.22 Caliber).
- Ensure that the barrel is properly installed by a qualified gunsmith to avoid any risks associated with improper installation.
- Use appropriate ammunition that meets the specifications for the barrel to prevent malfunctions and ensure safety.
- Always wear appropriate eye and ear protection when shooting.
- Do not attempt to modify or repair the barrel yourself. Seek professional assistance if needed.
- Be aware of your surroundings when using the firearm equipped with this barrel to avoid accidents.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and the safety is engaged before beginning installation.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Align the CONTOUR #7 barrel with the receiver and secure it according to the manufacturer's specifications.
- Check that the barrel is properly fitted and tightened before using the firearm.

2. Usage:

- Before shooting, ensure that the barrel is clean and free from obstructions.
- Load the firearm with the appropriate ammunition for the barrel.
- Follow standard firearm safety practices while aiming and firing.
- After shooting, clean the barrel according to the manufacturer's recommendations to maintain performance and safety.

Disposal Instructions

- When the barrel has reached the end of its useful life or is no longer needed, dispose of it in accordance with local regulations regarding hazardous materials.

- Do not discard the barrel in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the CONTOUR #7, 8 & 9 BARREL SHILEN CONTOUR #7 .224, 12 TWIST, CM, please contact your supplier or refer to the manufacturer's website for additional resources and support.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your CONTOUR #7, 8 & 9 BARREL SHILEN CONTOUR #7 .224, 12 TWIST, CM. Always prioritize safety and responsible use of firearms and their components. Thank you for your attention to these important safety measures.
