

# CONTOUR #5 BARREL - SHILEN 6.5MM 1-9 TWIST #5 CHROME MOLY BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

## Contour #5 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope in- spected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 6.5MM 1-9 TWIST #5 CHROME MOLY BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787264095
- Mfr. No.: 65MM95CM
- Caliber: 264/6.5 mm (.264)
- Contour: #5
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-9
- Delivery weight: 1.973kg
- Shipping height: 28mm
- Shipping width: 30mm
- Shipping length: 711mm

## **Item details**

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for CONTOUR #5 BARREL SHILEN 6.5MM 19 TWIST #5 CHROME MOLY BARREL

## Introduction

Thank you for choosing the CONTOUR #5 BARREL SHILEN 6.5MM 19 TWIST #5 CHROME MOLY BARREL. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this guide carefully before use to minimize any risks associated with the product.

## General Safety Guidelines

- Ensure that you are familiar with all local laws and regulations regarding the use and ownership of firearms and firearm components.
- Always treat the barrel as if it is loaded, even when it is not.
- Store the barrel in a secure location, out of reach of children and unauthorized users.
- Use the barrel only for its intended purpose as specified by the manufacturer.
- Regularly inspect the barrel for signs of wear or damage before each use.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when handling the barrel.
- Ensure that the barrel is properly installed on the firearm before use.
- Do not exceed the recommended caliber specifications for the barrel.
- Avoid using the barrel with ammunition that does not meet the required specifications.
- Be aware of the potential for recoil and ensure a secure grip when firing.
- Never attempt to modify the barrel or its components without professional assistance.
- If you notice any unusual sounds or performance issues while using the barrel, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Clean the barrel threads and the receiver of the firearm to remove any debris or residue.
- Align the new CONTOUR #5 BARREL with the receiver and carefully screw it into place, ensuring it is secure but not overtightened.
- Doublecheck the alignment and ensure that the barrel is seated properly.

### 2. Usage:

- Load the firearm according to the manufacturer's instructions, using only compatible ammunition.
- Fire the firearm in a controlled environment, ensuring that all safety protocols are followed.
- After use, clean the barrel according to the cleaning instructions provided by the manufacturer to maintain performance and safety.

## **Disposal Instructions**

- Dispose of the barrel in accordance with local regulations regarding firearm components.
- Do not throw the barrel in regular household waste.
- Consider contacting a local firearms dealer or recycling center for proper disposal options.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please contact your supplier or manufacturer's customer service.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with the CONTOUR #5 BARREL SHILEN 6.5MM 19 TWIST #5 CHROME MOLY BARREL. Always prioritize safety and responsible usage.
