# Safety Instruction Guide for 3006 Springfield Fitted Barrel for Large Ring Mauser 98

## Introduction

Thank you for choosing the 3006 Springfield Fitted Barrel for Large Ring Mauser 98 by Shilen. This guide is designed to ensure your safety and the proper use of the product. Please read this document carefully before installation and use.

## General Safety Guidelines

To ensure safe use of the product, please follow these guidelines:

- Always handle firearms and firearm components with care.
- Ensure that the firearm is unloaded before beginning any installation.
- Follow all local laws and regulations regarding firearms.
- Store the barrel and other firearm components in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the barrel for any signs of damage or wear.
- Use appropriate safety gear, including eye and ear protection, when working with firearms.
- Be aware of your surroundings and ensure a safe working environment.

## Specific Safety Precautions for Use

When using the 3006 Springfield Fitted Barrel, please observe the following precautions:

- Only use this barrel with the designated Mauser 98 model.
- Ensure that the barrel is installed by a qualified gunsmith or experienced individual familiar with firearms.
- Use a handturned finish reamer as specified in the product description to achieve proper headspace.
- Always check headspace before firing the firearm with the new barrel installed.
- Do not attempt to modify or alter the barrel in any way that is not specified by the manufacturer.
- If you experience any malfunctions or unusual behavior when using the firearm, stop using it immediately and seek professional assistance.

## Instructions for Installation and Usage

To install and use the 3006 Springfield Fitted Barrel, follow these steps:

### 1. Preparation:

- Ensure that you have the necessary tools, including a handturned finish reamer and headspace gauges.
- Gather all required materials and ensure a clean working area.

### 2. Installation:

- Unload the firearm completely and ensure it is safe to work on.
- Remove the existing barrel from the Mauser 98 according to the manufacturer's instructions.
- Thread the new barrel into the receiver of the Mauser 98. Ensure it is aligned properly.
- Use the finish reamer to deepen the chamber until the headspace is confirmed to be perfect. Follow the manufacturer's specifications closely.
- Reassemble the firearm according to the manufacturer's instructions.

### **3. PostInstallation Checks:**

- Verify that the barrel is securely attached and that all components are functioning correctly.
- Conduct a headspace check using the appropriate gauges to ensure safety before firing.
- If everything is in order, proceed to safely load and fire the firearm in a controlled environment.

## **Disposal Instructions**

When disposing of the 3006 Springfield Fitted Barrel, please consider the following:

- Do not dispose of the barrel in regular household waste.
- Contact your local waste management authorities for proper disposal methods for firearm components.
- Ensure that the barrel is rendered inoperable before disposal if required by local laws.

## **Contact Information for Further Support**

For any questions or concerns regarding the 3006 Springfield Fitted Barrel, please refer to the manufacturer's contact information provided with your product. It is important to consult with professionals for any safety inquiries or technical support.

By following these guidelines and instructions, you can ensure a safe and effective experience with your new firearm component. Thank you for your attention to safety and responsible firearm ownership.
