

REMINGTON 700 FACTORY CONTOUR PRE-THREADED BARREL - SHILEN 223 REMINGTON 1-9" TWIST VARMINT STAINLESS STEEL BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrels](#)

Fits Remington Factory Stocks With Little-To-No Modification

Made for Brownells by Shilen to match the factory contour. Upgrade the performance and accuracy of Remington 700 rifles without costly stock work. Match-grade, short-chambered barrels have the correct contour to drop into Remington factory or aftermarket stocks with little-to-no barrel channel modifications. Install with your factory recoil lug. Muzzle is cut at 90° to the bore and ready for crowning. After installation, use a hand-turned, finish reamer to deepen chamber until correct headspace is reached. (Correct headspace gauges and reamer required.)

Safety Instruction Guide for REMINGTON 700 FACTORY CONTOUR PRETHREADED BARREL SHILEN 223 REMINGTON

Introduction

Thank you for choosing the REMINGTON 700 Factory Contour PreThreaded Barrel by Shilen. This guide provides essential safety instructions and information for the proper use and installation of your new barrel. Adhering to these guidelines will help ensure safe operation and optimal performance.

General Safety Guidelines

- Always handle firearms and firearm components with care.
- Ensure that the firearm is unloaded before installing or working on any components.
- Be aware of your surroundings and ensure that no one is in the vicinity when handling or working with the firearm.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves during installation.
- Keep the barrel and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the barrel and firearm for signs of wear or damage.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the barrel is compatible with your specific Remington 700 model.
- Verify that the chamber is free of obstructions before use.
- Use only the recommended ammunition type (223 Remington) to avoid malfunctions or accidents.
- Follow all local laws and regulations regarding firearm use.
- If you are inexperienced or unsure about the installation process, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including a handturned finish reamer and correct headspace gauges.
- Ensure that your workspace is clean and free of distractions.

2. Installation Steps:

- Remove the existing barrel from the Remington 700 rifle following the manufacturer's instructions.
- Install the new Shilen barrel using the factory recoil lug.
- Ensure the muzzle is cut at 90° to the bore and is ready for crowning.
- After installation, use the handturned finish reamer to deepen the chamber until the correct headspace is reached.
- Regularly check the headspace using the appropriate gauges to ensure safety and functionality.

3. PostInstallation:

- After installation, perform a thorough inspection of the firearm to ensure all components are securely attached.

- Test the firearm in a controlled environment, ensuring that it operates correctly before using it in the field.

Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling and waste disposal regulations.
- If the barrel or any firearm components become damaged beyond repair, consult local regulations for proper disposal methods.
- Never dispose of firearms or firearm components in a manner that poses a risk to public safety.

Contact Information for Further Support

For any inquiries or concerns regarding the safety or performance of your REMINGTON 700 Factory Contour PreThreaded Barrel, please contact the manufacturer or a qualified gunsmith. Always prioritize safety and follow local regulations regarding firearm use and maintenance.

Thank you for your attention to these safety guidelines. Enjoy your new barrel and stay safe!
