

BUEHLER-STYLE LOW SAFETY - TIMNEY M98 SAFETY

[Rifle Parts](#) > [Safety Parts](#) > [Safeties](#)

Positive Stops At On & Off; Simple, Fast Installation

The re-make of the famous Buehler Low Safety. Faster and much more convenient to operate than the factory safety plus, it will not interfere with even the lowest mounted scopes. Rotates through a 70° arc on the right side of the rifle with positive stops in both the "on" and "off" positions. Securely holds the bolt and the striker in the locked position. Precision CNC machined from high-quality steel, hardened at all wear points, polished and blued. No machining required for installation on M98. M93/96 may require grinding of cocking piece.

BUEHLERSTYLE LOW SAFETY TIMNEY M98 SAFETY

Safety Instruction Guide

Introduction

Thank you for choosing the BuehlerStyle Low Safety Timney M98 Safety. This product is designed to enhance the safety and usability of your firearm. It is crucial to understand and follow the safety guidelines outlined in this manual to ensure safe operation and to prevent accidents.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store firearms and ammunition separately, and out of reach of children.
- Ensure that the safety mechanism is engaged when the firearm is not in use.
- Be aware of your surroundings and ensure that your firing area is clear of people and obstacles.
- Regularly inspect your firearm and its components for wear or damage.
- Always wear appropriate eye and ear protection when handling or shooting firearms.
- Follow all applicable laws and regulations regarding firearm use and ownership.

Specific Safety Precautions for Use

- This safety is designed for use with Mauser M98 and FN rifles. Ensure compatibility before installation.
- Do not attempt to modify or alter the safety mechanism. Doing so may compromise its effectiveness and safety.
- Ensure that the safety is fully engaged when the firearm is not in use.
- Be cautious when operating the safety mechanism to prevent accidental discharge.
- If you experience resistance or difficulty when operating the safety, stop using the firearm and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation

- Ensure that the firearm is unloaded and pointed in a safe direction before beginning installation.
- Remove the existing safety mechanism according to the manufacturer's instructions.
- Install the BuehlerStyle Low Safety by following these steps:
 - Align the safety with the designated slot on the firearm.
 - Insert the safety and ensure it rotates smoothly through its arc.
 - Confirm that the safety engages securely in both the "on" and "off" positions.
- If installing on a Mauser M93/96, grinding of the cocking piece may be required. Consult a qualified gunsmith if unsure.

Usage

- To engage the safety, rotate the lever to the "on" position. This will securely hold the bolt and striker in the locked position.
- To disengage the safety, rotate the lever to the "off" position. Ensure that you are in a safe shooting position before doing so.
- Always verify that the safety is functioning correctly before use.

Disposal Instructions

- Dispose of the safety mechanism in accordance with local regulations.
- Do not dispose of the safety mechanism in regular household waste. Check with local authorities for proper disposal methods.
- Ensure that all components are disposed of safely to prevent accidental injury.

Contact Information for Further Support

For any inquiries or further assistance regarding the BuehlerStyle Low Safety Timney M98 Safety, please refer to the manufacturer's contact information found in the product packaging or visit their official website.

Conclusion

By following these safety instructions, you can help ensure a safe and enjoyable experience with your BuehlerStyle Low Safety Timney M98 Safety. Always prioritize safety and responsibility when handling firearms. Thank you for your attention to these important guidelines.
