

MAXIMA TIKKA RINGS - WARNE MFG. COMPANY 1" MEDIUM MATTE BLACK TIKKA RINGS

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

Tikka rifles have a grooved receiver that allows for a dovetail ring to mount directly to it, negating the need for a base. Warne's Maxima Tikka rings are a solid steel, vertically split ring that handle even the most punishing recoil, or large, heavy scopes. The Tikka Quick Detach rings utilize 4 T-15 Torx style socket cap screws for secure and permanent optics mounting and also feature a redesigned recoil pin to provide a stronger bearing surface for higher recoiling rifles. Attaches to firearm's dovetail. Return to Zero Guaranteed, quickly detach and reattach the Maxima QD rings with no loss of zero. Tikka specific recoil pin for positive engagement of ring to receiver dovetail. Rings securely mount around scope using 4 Torx style T-15 socket cap screws.
