

Wind Wizard II

[Shooting Accessories](#) > [Windmeters & Flags](#) > [Windmeters](#)

The Caldwell® Wind Wizard II has been re-designed to be the best value wind meter on the market and an ideal tool for indicating wind speed. Knowing wind speed gives the shooter the ability to judge shot placement in varying wind conditions. Both compact and portable, this wind meter reads wind and temperature in various units of measure. The non-slip rubber sleeve protects the unit and ensures it's easy to grip even with gloved hands. Operates on one CR2032 battery (included).

Caldwell Wind Wizard II Safety Instruction Guide

Introduction

Thank you for choosing the Caldwell® Wind Wizard II. This wind meter has been designed with your safety and convenience in mind. It is essential to read and understand these safety instructions to ensure safe and effective use of the product. This guide complies with the EU General Product Safety Regulation (GPSR) and aims to provide clear and concise safety information.

General Safety Guidelines

- Always use the product according to the manufacturer's instructions to ensure safety.
- Keep the Wind Wizard II out of reach of children and vulnerable individuals to prevent accidental misuse.
- Regularly check the product for any signs of damage or wear. Do not use if damaged.
- Ensure the battery compartment is securely closed before use to prevent battery leakage.
- Dispose of batteries and the product in accordance with local regulations to minimize environmental impact.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not expose the Wind Wizard II to extreme temperatures or humidity, as this may affect its functionality.
- Avoid dropping or subjecting the wind meter to strong impacts to prevent internal damage.
- Do not attempt to open the device or replace internal components; this may void the warranty and compromise safety.
- Use the nonslip rubber sleeve for a secure grip, especially when using the device with gloved hands.
- Always ensure you are in a safe environment when measuring wind speed, especially if used in outdoor settings.

Instructions for Installation and Usage

1. Battery Installation:

- Open the battery compartment located at the back of the Wind Wizard II.
- Insert the included CR2032 battery, ensuring the positive (+) and negative (-) ends are correctly aligned.
- Close the battery compartment securely.

2. Powering On:

- Press the power button to turn on the Wind Wizard II.
- The display will show the current wind speed and temperature readings.

3. Measuring Wind Speed:

- Hold the device with the nonslip rubber sleeve for a secure grip.
- Point the wind meter into the wind for accurate readings.
- Read the displayed wind speed on the screen. The device can switch between different units of measure (e.g., mph, km/h) as per your preference.

4. Powering Off:

- Press the power button again to turn off the Wind Wizard II after use to conserve battery life.

Disposal Instructions

- Dispose of the Wind Wizard II and its battery in accordance with local waste disposal regulations.
- Do not dispose of batteries in household waste; take them to a designated recycling point.
- Ensure the product is decommissioned and cannot be reused if it is no longer functional.

Contact Information for Further Support

For any inquiries regarding the Caldwell® Wind Wizard II, including safety concerns or product support, please refer to the manufacturer's contact details provided with the product packaging or visit the official Caldwell website.

Thank you for your attention to these safety guidelines. Enjoy using your Caldwell® Wind Wizard II responsibly and safely.
