

# Ultra Jag 25 / 6.5mm Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag – it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom “clean until you get a clear patch” you might be in for a long night. Tipton®’s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

# Tipton Ultra Jag Safety Instruction Guide

## Introduction

Thank you for choosing the Tipton Ultra Jag for your cleaning needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the Tipton Ultra Jag.

## General Safety Guidelines

- Ensure safe use of the Tipton Ultra Jag by following these key safety guidelines:
- Always keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose, which is cleaning firearm barrels.
- Regularly inspect the cleaning jag for any signs of wear or damage before use.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- Dispose of any cleaning solvents and materials in accordance with local regulations.

## Specific Safety Precautions for Use

- When using cleaning solvents:
  - Use only modern bore solvents that are compatible with the Tipton Ultra Jag.
  - Avoid contact with skin and eyes. Always wear protective gloves and eyewear.
  - Ensure proper ventilation in the area where you are using the product.
- Do not exceed the recommended amount of solvent to avoid excessive buildup and potential hazards.
- If you experience any adverse reactions while using the product, discontinue use immediately and seek medical advice.
- Keep the cleaning area clean and free from clutter to prevent accidents.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials, including your Tipton Ultra Jag, bore solvent, and cleaning rod.

### 2. Installation:

- Attach the Tipton Ultra Jag to the cleaning rod securely.
- Ensure that the connection is tight to prevent detachment during use.

### 3. Usage:

- Apply a small amount of modern bore solvent to the brass cleaning jag.
- Insert the jag into the bore of the firearm gently.
- Push the jag through the bore using the cleaning rod, taking care not to apply excessive force.
- Remove the jag from the bore and inspect for any blue stains that indicate copper fouling.
- Repeat the cleaning process as necessary until you achieve the desired cleanliness.

### 4. PostUsage:

- Clean the Tipton Ultra Jag after each use to maintain its effectiveness.
- Store the cleaning jag in a safe location when not in use.

## Disposal Instructions

- Dispose of any used cleaning solvents and materials in accordance with local environmental regulations.
- Do not dispose of the Tipton Ultra Jag in regular household waste. Check with your local waste management facility for proper disposal methods.

## Contact Information for Further Support

For any inquiries or concerns regarding the Tipton Ultra Jag, please contact the manufacturer or your local retailer for assistance. Always refer to the official website or product packaging for the most accurate contact information.

Thank you for following these safety guidelines. Enjoy your cleaning experience with the Tipton Ultra Jag!
