

Bore Lapping Kit

[Gunsmith Tools](#) > [Barrel Tools](#)

Lap your barrels to make them shoot better and easier to clean. Lapping polishes out the tool marks left in rifle barrels during manufacturing. Traditional hand-lapping is very labor intensive and requires pushing lead slugs down the bore by hand. The Wheeler® kit allows you to embed lead or jacketed bullets with abrasive and fire them through your barrel. Works in everything from old .22 rimfires to neglected hunting rifles. Kit includes three jars of high quality abrasive pastes, two steel embedding plates and complete instructions.

Wheeler Bore Lapping Kit Safety Instructions

Introduction

Thank you for choosing the Wheeler Bore Lapping Kit. This product is designed to enhance the performance of your firearms by polishing the bore of the barrel, making them easier to clean and improving accuracy. It is important to follow safety guidelines to ensure safe usage and optimal performance.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using this kit.
- Keep the kit out of reach of children and vulnerable individuals.
- Inspect the kit and its components regularly for any signs of damage or wear.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about any product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

• Hazard Identification:

- The use of abrasive materials may cause skin irritation; handle with care.
- Lead exposure can be harmful; avoid direct contact with lead slugs and wash hands thoroughly after use.
- Ensure proper ventilation when using the kit to avoid inhaling dust or fumes.

• Avoiding Hazards:

- Do not use the kit if you are not familiar with firearm safety.
- Always ensure that the firearm is unloaded before beginning the lapping process.
- Follow all local laws and regulations regarding the use of firearms and ammunition.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary components of the Wheeler Bore Lapping Kit, including abrasive pastes and embedding plates.
- Ensure your firearm is clean and unloaded. Doublecheck that no ammunition is present in the area.

2. Applying Abrasive Paste:

- Open the jars of abrasive paste.
- Using gloves, apply a small amount of abrasive paste to the lead or jacketed bullets.

3. Embedding the Bullets:

- Place the embedded plates on the bullet with the abrasive paste.
- Ensure that the paste is evenly distributed around the bullet.

4. Firing Process:

- Insert the prepared bullet into the barrel of your firearm.

- Follow standard firearm safety practices when loading and firing.

5. PostUsage:

- After firing, clean the barrel thoroughly to remove any remaining abrasive material.
- Inspect the barrel for any signs of wear or damage.

Disposal Instructions

- Dispose of any unused abrasive pastes and contaminated materials in accordance with local regulations.
- Do not dispose of lead slugs or any components in regular household waste.
- Check with local waste management authorities for proper disposal methods for hazardous materials.

Contact Information for Further Support

For any inquiries regarding the Wheeler Bore Lapping Kit, please refer to the packaging for the manufacturer's contact details or consult your retailer. Ensure you have the product information ready for a more efficient response.

By following these safety instructions, you can ensure that the Wheeler Bore Lapping Kit is used effectively and safely. Always prioritize safety and compliance with local laws when using firearms and related products. Thank you for choosing Wheeler.
