

Square Deal B Progressive Reloading Machine for Pistol Calibers - Dillon Square Deal B (SDB) Reloading Machine 41 Mag

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

The Square Deal B is our most compact machine, it loads common straight walled handgun and carbine cartridges from 32 S&W Long through 45 Colt. Featuring an automatically indexed shellplate, it is intended to produce moderate quantities of match-quality handgun ammunition for the user who does not have a need to load bottle-necked cartridges. Dies are included and are factory adjusted to reduce your set up time.

Dillon Square Deal B Progressive Reloading Machine Safety Instructions

Introduction

Thank you for choosing the Dillon Square Deal B Progressive Reloading Machine. This guide provides essential safety instructions and guidelines for the safe use of your reloading machine. Please read all instructions carefully before using the product to ensure safe operation and avoid potential hazards.

General Safety Guidelines

- Ensure that the reloading machine is used only by individuals who are familiar with its operation and safety precautions.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using the reloading machine.
- Keep the workspace clean and organized to avoid accidents and ensure efficient operation.
- Store all reloading components, including primers, powders, and bullets, in a safe and secure location away from children and pets.
- Regularly inspect the reloading machine for wear and damage. Do not operate if any parts are damaged or missing.
- Follow all local laws and regulations regarding the reloading of ammunition.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the Dillon Square Deal B.
- Always ensure that the machine is properly set up before beginning the reloading process.
- Keep hands and clothing clear of moving parts during operation to prevent injury.
- Never leave the reloading machine unattended while in use.
- If any unusual noises or malfunctions occur during operation, stop immediately and inspect the machine.
- Use only Dillon-approved components and accessories with the Square Deal B to ensure compatibility and safety.
- Ensure proper ventilation in the workspace to avoid inhalation of dust or fumes from reloading materials.

Instructions for Installation and Usage

1. Unpacking and Setup

- Carefully unpack the Dillon Square Deal B from its packaging.
- Place the machine on a stable and level work surface.
- Ensure that the area is welllit and free of obstructions.

2. Installation

- Follow the manufacturer's instructions for installing the shellplate and dies. Ensure they are securely fastened.
- Connect any necessary components as per the user manual.

3. Loading Components

- Measure and prepare all components before starting the reloading process.
- Load the primers, powder, and bullets according to the specifications provided in the user manual.
- Doublecheck that all components are correctly placed and secured.

4. Operating the Machine

- Turn on the machine and allow it to index automatically.
- Monitor the operation closely and ensure that all parts are functioning correctly.
- Collect the finished cartridges and inspect them for quality before use.

5. PostOperation Care

- After use, clean the machine to remove any residue or debris.
- Store the machine and all components in a safe location.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of hazardous materials in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Dillon Square Deal B Progressive Reloading Machine, please reach out to your local Dillon customer service or refer to the user manual for additional support.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Dillon Square Deal B Progressive Reloading Machine. Always prioritize safety and stay informed about best practices in ammunition reloading.
