Dillon SL900 Conversion Kits Safety Instruction Guide

Introduction

Thank you for choosing the Dillon SL900 Conversion Kit for your reloading needs. This guide provides important safety information, installation instructions, and usage tips to ensure a safe and efficient reloading experience. Please read this guide carefully before using the product.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and hearing protection, when using reloading equipment.
- Keep the reloading area clean and organized to prevent accidents.
- Store all components, including the conversion kit, out of reach of children and unauthorized users.
- Ensure proper ventilation in the workspace to avoid inhaling dust or fumes from the materials used.
- Do not exceed the recommended load limits for your reloading equipment.
- Always follow the manufacturer's instructions for each component used in the reloading process.
- Regularly inspect your equipment for wear and tear, and replace any damaged parts immediately.

Specific Safety Precautions for Use

- Ensure that all tools and components are compatible with the Dillon SL900 system before use.
- Be aware of the specific hazards associated with handling reloading materials, including gunpowder and primers.
- Avoid distractions while reloading to maintain focus and prevent mistakes.
- Never leave the reloading process unattended, especially when working with live ammunition.
- In case of any malfunction or unusual behavior of the equipment, stop using it immediately and consult the manufacturer.

Instructions for Installation and Usage

Installation

1. **Unpack the Conversion Kit:** Carefully remove all components from the packaging and verify that you have all items listed in the product description.
2. **Toolhead Assembly:** Install the complete toolhead assembly with dies according to the Dillon SL900 manual.
3. **Station Setup:**
 - **Station 1:** Install the collet sizer and depriming pin assembly.
 - **Station 2:** Attach the powder die with funnel and retaining clip.
 - **Station 3:** Set up the complete shot dispenser assembly with the shot bar and shot drop tube.
 - **Station 4:** Insert the starter crimp star/radius form insert.
 - **Station 5:** Install the new spring/over floating taper crimp die.
4. **Shellplate and Locators:** Place the shellplate and locator buttons with locator rings and springs into their respective positions.
5. **Wad Guides and Casefeed Sleeve:** Install the wad guides (one spare) and the casefeed sleeve assembly.

Usage

- Follow the Dillon SL900 operating instructions for loading and adjusting the machine.
- For 12 gauge shot loads lighter than 1 oz, ensure you are using the correct Shot Bar #22140.
- Regularly check the settings and adjustments to maintain consistent performance.

- Keep a log of your reloading sessions for reference and safety checks.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Recycle packaging materials where possible.
- Ensure that any hazardous materials are disposed of at a designated facility that handles such waste.

Contact Information for Further Support

For any inquiries related to safety or product support, please refer to the manufacturer's contact details provided with your product packaging or on the official website.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy your reloading experience with the Dillon SL900 Conversion Kit!
