Dillon SL900 Conversion Kits Safety Instruction Guide

Introduction

Thank you for choosing the Dillon SL900 Conversion Kits. This guide provides essential safety instructions and information to help you use the product safely and effectively. Please read this guide carefully before installation and use to ensure your safety and the safety of others.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe operation.
- Ensure that the workspace is clean and free from obstructions.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in this guide.
- Regularly inspect the product for any signs of wear or damage.
- If you notice any irregularities or issues, discontinue use immediately and contact support.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the conversion kit.
- Ensure that the conversion kit is installed correctly before use to avoid accidents.
- Do not exceed the recommended load limits for the product.
- Handle all components with care to prevent injury.
- Be aware of your surroundings and ensure that no one is near the operational area while using the product.
- Store the conversion kit in a dry and secure location when not in use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components included in the conversion kit.
- Ensure that the Dillon SL900 press is turned off and unplugged.

2. Installation:

- Remove the existing toolhead assembly from the Dillon SL900 press.
- Install the complete toolhead assembly with dies installed from the conversion kit.
- Attach the collet sizer and depriming pin assembly to Station 1.
- Install the powder die with funnel and retaining clip at Station 2.
- Attach the complete shot dispenser assembly with shot bar and shot drop tube to Station 3.
- Insert the starter crimp star/radius form insert at Station 4.
- Install the new spring/over floating taper crimp die at Station 5.
- Place the shellplate, locator buttons, and other components as per the instructions provided in the kit.

3. Usage:

- Follow the reloading procedures as outlined in the Dillon SL900 manual.
- Ensure that you are using the correct components for 12 gauge shot loads lighter than 1 oz, if applicable.
- Monitor the operation closely for any signs of malfunction or unusual behavior.

4. PostUse:

- After use, clean the conversion kit and the Dillon SL900 press according to the manufacturer's recommendations.
- Store all components in the provided Conversion Kit box to prevent loss or damage.

Disposal Instructions

- Dispose of any packaging materials responsibly by recycling where possible.
- Follow local regulations for the disposal of any damaged or unusable components.
- Do not dispose of the product in regular household waste if it is no longer usable; check for local hazardous waste disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the Dillon SL900 Conversion Kits, please refer to the manufacturer's contact information provided in the product documentation or visit the official website for further assistance.

Thank you for your attention to these safety instructions. Your safety is our priority, and we appreciate your commitment to using the Dillon SL900 Conversion Kits responsibly.
