

SL900 Accessories - Shotshell Casefeeder 12 ga (110v)

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

Electric Case Feed System allows you to simply dump about 80 fired hulls into the bowl. The Case Feeder orients the hulls right side up and fills the feed tube automatically, turning itself on and off as necessary, to keep the case feed tube full.

Dillon SL900 Accessories Shotshell Casefeeder 12 ga (110v) Safety Instruction Guide

Introduction

Thank you for choosing the Dillon SL900 Accessories Shotshell Casefeeder. This electric case feed system is designed to enhance your reloading experience by efficiently orienting and feeding fired hulls into your reloading press. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always operate the case feeder in a welllit and dry environment.
- Keep the area around the product clean and free of obstructions.
- Do not use the product if it appears damaged or malfunctioning.
- Regularly inspect the equipment for wear and tear.
- Follow all manufacturer instructions and guidelines provided in this manual.
- Store the product in a safe place out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended capacity of approximately 80 fired hulls in the bowl.
- Ensure that the power supply matches the voltage requirements (110v) before connecting the product.
- Avoid placing your hands or any objects near moving parts during operation.
- Disconnect the power supply when performing maintenance or cleaning.
- Use protective eyewear if necessary, especially during loading and unloading of hulls.
- Do not attempt to modify or repair the product unless you are qualified to do so.

Instructions for Installation and Usage

1. Installation:

- Place the Dillon SL900 Accessories Shotshell Casefeeder on a stable, flat surface.
- Ensure that the feed tube is securely attached and properly aligned.
- Connect the power supply to a suitable electrical outlet (110v).
- Verify that the power switch is in the "off" position before plugging in the unit.

2. Loading Hulls:

- Open the bowl lid and carefully dump approximately 80 fired hulls into the bowl.
- Close the lid securely to prevent any spillage during operation.

3. Operation:

- Turn the power switch to the "on" position to activate the case feeder.
- Observe the orientation of the hulls as they are fed into the feed tube; they should be right side up.
- The case feeder will automatically fill the feed tube and shut off as necessary to maintain a full tube.
- If the feeder does not operate as expected, disconnect the power and check for any blockages or malfunctions.

4. Maintenance:

- Regularly clean the bowl and feed tube to prevent buildup of debris.
- Inspect electrical connections and the power cord for any signs of damage.
- If any parts need replacement, use only genuine Dillon parts.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of electrical components in regular waste; check for designated electronic waste disposal facilities in your area.
- Ensure that any packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product packaging or user manual.

By following these safety instructions, you can ensure a safe and efficient experience with your Dillon SL900 Accessories Shotgun Casefeeder. Thank you for your commitment to safety and responsible usage.
