

RL550 Automatic Case Feeder - Dillon RL550B Casefeeder Large Pistol 220-Volt

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

An automatic casefeed system, similar to the one used on Dillon's commercial-grade Super 1050 machine and the XL 750, is now available for YOUR RL 550 series press! You simply dump a quart of cases into the hopper and turn it on. The motor-driven disc fills the case feed tube, a micro-switch shuts off the motor when the tube is full, and automatically restarts it when low. This case feeder only works for the handgun calibers listed under the casefeed caliber conversions, you will need the right conversion kit for your caliber(s). Rifle cases are too tall to feed with this system.

Dillon RL550 Automatic Case Feeder Safety Instructions

Introduction

Thank you for choosing the Dillon RL550 Automatic Case Feeder, designed to enhance your reloading experience. This guide provides essential safety instructions to ensure the safe and effective use of the case feeder. Please read this manual carefully before installation and operation.

General Safety Guidelines

- **Product Safety:** Ensure that the Dillon RL550 Automatic Case Feeder is used according to the guidelines provided in this manual to prevent accidents and injuries.
- **Enhanced Recalls:** Stay informed about any product recalls. If you receive a notice regarding this product, follow the instructions provided for safe return or remedy.
- **Online Shopping Safety:** If purchased online, ensure that the platform complies with safety standards.
- **Special Consumer Focus:** Keep out of reach of children. This product is not intended for use by individuals under the age of 18.
- **EU Contact Point:** For any safety inquiries, please refer to the official contact point provided with your purchase.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on safety alerts related to this product.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Electrical hazards: Ensure that the device is properly connected to a suitable power source.
 - Mechanical hazards: Be cautious of moving parts during operation.
 - Improper use: Only use the case feeder with compatible handgun calibers as specified.
- **Avoiding Hazards:**
 - Do not operate the case feeder without reading the manual.
 - Always ensure the device is turned off and unplugged when not in use or during maintenance.
 - Do not exceed the specified capacity of the hopper.
 - Avoid wearing loose clothing or jewelry that could become caught in moving parts.
- **AgeSpecific Warnings:**
 - This product is not suitable for use by children or individuals who are not familiar with reloading equipment.

Instructions for Installation and Usage

- **Installation:**
 1. Place the Dillon RL550 Automatic Case Feeder on a stable, flat surface.
 2. Ensure the feeder is securely connected to the Dillon RL550 press.
 3. Plug the device into a suitable 220Volt power outlet.
 4. Check that all connections are tight and secure before turning on the device.
- **Usage:**

1. Fill the hopper with a quart of compatible handgun cases.
2. Turn on the power switch to activate the feeder.
3. Monitor the case feed tube to ensure it is filling properly.
4. The microswitch will automatically shut off the motor when the tube is full and restart it when the level is low.
5. Do not attempt to override the automatic shutoff feature.

Disposal Instructions

- Dispose of the Dillon RL550 Automatic Case Feeder in accordance with local regulations regarding electronic waste.
- If the product is no longer functional, please ensure it is disposed of responsibly to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the Dillon RL550 Automatic Case Feeder, please refer to the contact information provided with your purchase.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Dillon RL550 Automatic Case Feeder. Always prioritize safety and stay informed about the proper use of your equipment.
