

# RL550 Automatic Case Feeder - Dillon RL550B Casefeeder Large Pistol 110-Volt

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

An automatic casefeed system, similar to the one used on Dillon's commercial-grade Super 1050 machine and the XL 750, is now available for YOUR RL 550 series press! You simply dump a quart of cases into the hopper and turn it on. The motor-driven disc fills the case feed tube, a micro-switch shuts off the motor when the tube is full, and automatically restarts it when low. This case feeder only works for the handgun calibers listed under the casefeed caliber conversions, you will need the right conversion kit for your caliber(s). Rifle cases are too tall to feed with this system.

# Dillon RL550 Automatic Case Feeder Safety Instruction Guide

## Introduction

Thank you for choosing the Dillon RL550 Automatic Case Feeder. This guide provides essential safety instructions to ensure the safe and effective use of your case feeder. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the case feeder is used only for its intended purpose as described in the product specifications.
- Always follow the manufacturer's instructions for installation, operation, and maintenance.
- Keep the case feeder out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the case feeder for any signs of wear or damage before use.
- If you notice any unusual noises or malfunctions during operation, turn off the device immediately and consult the troubleshooting section or contact support.

## Specific Safety Precautions for Use

- Only use the Dillon RL550 Automatic Case Feeder with handgun calibers listed under the casefeed caliber conversions.
- Ensure that you have the appropriate conversion kit for your specific caliber(s) before using the case feeder.
- Do not attempt to feed rifle cases, as they are too tall for this system and may cause jams or other hazards.
- Always operate the case feeder with the hopper securely closed to prevent cases from spilling.
- Do not place your hands or any objects in the case feed tube while the machine is running.
- Be cautious of moving parts; keep loose clothing and hair away from the case feeder during operation.
- Ensure that the case feeder is placed on a stable and level surface to prevent tipping or accidents.

## Instructions for Installation and Usage

### 1. Installation

- Unpack the Dillon RL550 Automatic Case Feeder and ensure all parts are included.
- Follow the manufacturer's instructions to attach the case feeder securely to your Dillon RL550 press.
- Connect the power supply to the case feeder, ensuring it is compatible with your electrical system (110Volt).
- Ensure that the case feed tube is correctly positioned and secured.

### 2. Usage

- Before starting, ensure the hopper is empty and clean.
- Pour a quart of cases into the hopper and close the lid securely.
- Turn on the case feeder using the power switch.
- Monitor the case feed tube; the microswitch will automatically shut off the motor when the tube is full and restart it when it is low.
- After use, turn off the case feeder and disconnect it from the power supply.

## **Disposal Instructions**

- Dispose of the Dillon RL550 Automatic Case Feeder in accordance with local regulations regarding electronic waste.
- Remove any batteries or electronic components before disposal if applicable.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the Dillon RL550 Automatic Case Feeder, please refer to the contact information provided in the product manual or on the manufacturer's website.

By following these safety instructions, you can ensure a safe and efficient experience with your Dillon RL550 Automatic Case Feeder. Always prioritize safety and adhere to the guidelines provided. Thank you for your attention to these important details.
