

# RL550 Automatic Case Feeder - Dillon RL550B Casefeeder Small Pistol 220-Volt

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

An automatic casefeed system, similar to the one used on Dillon's commercial-grade Super 1050 machine and the XL 750, is now available for YOUR RL 550 series press! You simply dump a quart of cases into the hopper and turn it on. The motor-driven disc fills the case feed tube, a micro-switch shuts off the motor when the tube is full, and automatically restarts it when low. This case feeder only works for the handgun calibers listed under the casefeed caliber conversions, you will need the right conversion kit for your caliber(s). Rifle cases are too tall to feed with this system.

# Dillon RL550 Automatic Case Feeder Safety Instruction Guide

## Introduction

Thank you for choosing the Dillon RL550 Automatic Case Feeder. This product is designed to enhance your reloading experience by providing an efficient and automatic way to feed cases into your reloading press. Please read this safety instruction guide carefully to ensure safe and effective use of the case feeder.

## General Safety Guidelines

- Ensure that the case feeder is used only for its intended purpose as described in the product specifications.
- Always keep the product out of reach of children and vulnerable individuals.
- Inspect the case feeder regularly for any signs of wear or damage before each use.
- Do not modify the case feeder or use it in a manner not specified by the manufacturer.
- Always disconnect the power supply before performing any maintenance or adjustments.

## Specific Safety Precautions for Use

- Only use the case feeder with handgun calibers listed under the casefeed caliber conversions.
- Ensure that the correct conversion kit is used for your specific caliber(s).
- Do not attempt to feed rifle cases, as they are too tall for this system.
- Avoid overfilling the hopper to prevent jams or malfunction.
- Always monitor the case feed tube while in operation to ensure it is functioning correctly.
- Do not place your hands or any objects in the case feed tube or hopper while the machine is running.
- If the case feeder becomes jammed or malfunctions, turn off the power immediately and follow the troubleshooting instructions.

## Instructions for Installation and Usage

### 1. Installation:

- Place the Dillon RL550 Automatic Case Feeder on a stable and flat surface.
- Ensure the feeder is securely attached to your Dillon RL 550 series press according to the manufacturer's instructions.
- Connect the power supply to a suitable electrical outlet (220Volt).

### 2. Loading Cases:

- Dump a quart of cases into the hopper.
- Ensure that the cases are compatible with the case feeder's specifications.

### 3. Operation:

- Turn on the case feeder using the power switch.
- The motordriven disc will begin to fill the case feed tube.
- Monitor the microswitch indicator; it will shut off the motor when the tube is full and automatically restart it when the case level is low.

### 4. Maintenance:

- Regularly clean the hopper and case feed tube to prevent buildup of debris.

- Check all electrical connections periodically for wear and ensure they are secure.

## **Disposal Instructions**

- Dispose of the Dillon RL550 Automatic Case Feeder in accordance with local regulations regarding electronic waste.
- Remove any batteries or electrical components before disposal if applicable.
- Do not dispose of the case feeder in regular household waste.

## **Contact Information for Further Support**

For any safety inquiries or support related to the Dillon RL550 Automatic Case Feeder, please refer to the manufacturer's official website or contact your local dealer for assistance.

## **Conclusion**

Following these safety instructions will help ensure a safe and effective experience with your Dillon RL550 Automatic Case Feeder. Stay informed about product recalls and safety updates through the EU's Safety Gate platform. Thank you for prioritizing safety and responsible use of your reloading equipment.
