

RL550 Accessories - Dillon Belted Magnum Powder System

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

Magnum rifle cartridges can require from 70 grains to well in excess of 100 grains for a single charge. Our new "Belted Magnum" Powder System feature a new, maximum-capacity, steel powder bar that can dispense more than 100 grains of extruded IMR powder. Our new powder system can be used with your RL 550, XL 650 or BL 550 reloader, and is ideal for loading large-caliber, magnum rifle cartridges. We tested this system with various extruded rifles powders and found that powder charge variations stayed within plus-or-minus three-tenths of a grain. The "Belted Magnum" Powder System is based on our SL 900 Shot Dispenser, so the Maximum Charge Bar won't work in our standard powder measures - you'll need to buy the entire system. The good news is that the "Belted Magnum" Powder System has an integral drain, so it's easy to empty the hopper in order to change powder types; so, if you load several big calibers with various powders, it's easy to switch from one to another. Keep plenty of extra powder on hand, because when you're dispensing 100-plus grains into every cartridge, you're gonna need it!

Dillon Belted Magnum Powder System Safety Instructions

Introduction

Thank you for choosing the Dillon Belted Magnum Powder System. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the system to avoid any potential hazards.

General Safety Guidelines

- Ensure that the Dillon Belted Magnum Powder System is used only for its intended purpose, which is to dispense powder for reloading magnum rifle cartridges.
- Always follow the manufacturer's instructions and recommendations to ensure safe operation.
- Regularly inspect the system for any signs of damage or wear before each use.
- Keep the system out of reach of children and vulnerable individuals to prevent accidents.
- Store the powder in a cool, dry place away from direct sunlight and heat sources.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling powders.
- Ensure that the workspace is clean and free from any flammable materials.
- Do not exceed the recommended maximum charge of 100 grains when using the powder system.
- Avoid inhaling powder dust; use in a wellventilated area or with appropriate ventilation systems.
- If you experience any adverse reactions while using the product, discontinue use immediately and seek medical attention if necessary.
- Be aware of the potential for static electricity; ground yourself and the equipment when handling powders.

Instructions for Installation and Usage

1. Installation

- Carefully unpack the Dillon Belted Magnum Powder System and check for any missing parts.
- Follow the assembly instructions provided in the product manual to set up the system.
- Ensure that the system is securely mounted to your reloading press (RL 550, XL 650, or BL 550).
- Connect the integral drain to facilitate easy powder changes.

2. Usage

- Before loading, ensure that the powder bar is clean and free from any obstructions.
- Set the desired charge weight using the maximumcapacity steel powder bar.
- Slowly and carefully dispense the powder into the cartridge cases.
- After use, empty the hopper using the integral drain to switch powder types easily.

Disposal Instructions

- Dispose of any unused powder according to local regulations. Do not dispose of powder in regular household waste.
- Clean the system thoroughly after use to prevent contamination between different powder types.
- Follow local guidelines for the disposal of any hazardous materials.

Contact Information for Further Support

For any inquiries regarding the Dillon Belted Magnum Powder System, please refer to the manufacturer's contact information provided with the product packaging.
