

RIFAK Horizontal - MultiCam®

RIFAK (Rip-Away IFAK) è il nuovo kit individuale di primo soccorso progettato per contenere i presidi medici salvavita necessari all'attuazione del protocollo MARCH. La RIFAK conta due componenti distinte: un involucro esterno e un inserto interno estraibile, dove sono contenuti i presidi medici. Il sistema di sgancio è stato sviluppato per essere estremamente sicuro ma anche intuitivo da estrarre.

CARATTERISTICHE:

- Grazie al sistema Rip-Away l'operatore sarà in grado di raggiungere tutti i presidi medici in meno di 6 secondi.
- Non c'è rischio che i presidi medici possano fuoriuscire accidentalmente dall'inserto, anche estraendolo bruscamente, perché sono vincolati su tutti i lati.
- Non sono stati aggiunti "abbellimenti" (es. croci mediche, velcro, ricami...) che possano confondere l'operatore. L'unica porzione evidenziata in rosso è la maniglia di estrazione.
- Il cordino elastico esterno può essere usato per comprimere le dimensioni della tasca oltre che per trasportare un Tourniquet.
- Sui PALS/MOLLE laterali è possibile installare ulteriori tasche e/o vincolare strumenti come Forbici, Strap-Cutter e Tourniquet.

RIFAK Horizontal MultiCam® Safety Instructions

Introduction

Thank you for choosing the RIFAK (RipAway IFAK) kit. This individual first aid kit is designed to provide essential medical supplies for emergency situations, following the MARCH protocol. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that all users are familiar with the contents and operation of the RIFAK kit.
- Keep the kit in a secure location, accessible to trained personnel.
- Regularly check the kit for expired items and replenish supplies as necessary.
- Do not use the kit for purposes other than its intended use as a first aid kit.
- Always follow local regulations and guidelines concerning first aid practices.

Specific Safety Precautions for Use

- The RIFAK kit is designed for adult use. Ensure that children do not have unsupervised access to the kit.
- Be aware of any allergies to materials or components within the kit (e.g., latex gloves).
- Avoid exposing the kit to extreme temperatures or direct sunlight to maintain the integrity of the medical supplies.
- When extracting the kit, make sure the area is clear of obstacles to prevent injury.
- Handle all medical supplies with care to avoid selfinjury.

Instructions for Installation and Usage

Installation

1. **Secure Location:** Choose a secure location for the RIFAK kit, ensuring it is easily accessible in emergencies.
2. **Attachment:** Use the external elastic cord to compress the size of the pocket if necessary, and securely attach the kit to your gear using the PALS/MOLLE system.

Usage

1. **Quick Access:** In an emergency, pull the RipAway system to quickly access the medical supplies within 6 seconds.
2. **Extraction:** Grasp the red extraction handle firmly and pull straight out to remove the insert from the outer shell.
3. **Using Medical Supplies:** Follow standard first aid protocols when using the medical supplies. Ensure that all supplies are used as intended and according to training.
4. **Storage After Use:** After use, return all items to the kit and ensure it is resecured in its designated location.

Disposal Instructions

- Dispose of any used or expired medical supplies according to local regulations for hazardous waste.
- The RIFAK kit itself can be disposed of in regular waste if it is no longer usable. Ensure that all medical supplies are removed before disposal.

Contact Information for Further Support

For any safety inquiries or support related to the RIFAK kit, please contact the manufacturer or your local

distributor. Ensure that you have the product details ready for assistance.

By following these safety instructions, you can ensure the effective and safe use of the RIFAK Horizontal MultiCam® kit. Always prioritize safety and proper training when dealing with first aid situations.
