

## RIFAK Horizontal - Ranger Green

RIFAK ( Rip-Away IFAK ) è il nuovo kit individuale di primo soccorso progettato per contenere i presidi medici salvavita necessari all'attuazione del protocollo MARCH. La RIFAK conta due componenti distinte: un involucro esterno e un inserto interno estraibile, dove sono contenuti i presidi medici. Il sistema di sgancio è stato sviluppato per essere estremamente sicuro ma anche intuitivo da estrarre.

### CARATTERISTICHE:

- Grazie al sistema Rip-Away l'operatore sarà in grado di raggiungere tutti i presidi medici in meno di 6 secondi.
- Non c'è rischio che i presidi medici possano fuoriuscire accidentalmente dall'inserto, anche estraendolo bruscamente, perché sono vincolati su tutti i lati.
- Non sono stati aggiunti "abbellimenti" (es. croci mediche, velcro, ricami...) che possano confondere l'operatore. L'unica porzione evidenziata in rosso è la maniglia di estrazione.
- Il cordino elastico esterno può essere usato per comprimere le dimensioni della tasca oltre che per trasportare un Tourniquet.
- Sui PALS/MOLLE laterali è possibile installare ulteriori tasche e/o vincolare strumenti come Forbici, Strap-Cutter e Tourniquet.
