# Safety Instructions for Shock KIT Black

## Introduction

The Shock KIT Black is a versatile elastic cord designed for securing various items to your equipment, such as radio antennas, tourniquets, and clothing. This guide provides important safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always inspect the Shock KIT before each use to ensure it is in good condition.
- Do not use the product if it shows signs of damage or wear.
- Keep the product out of reach of children to avoid potential hazards.
- Ensure that the elastic cord is not overstretched to prevent breakage or injury.
- Avoid using the product in situations where it may become entangled with moving parts or machinery.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use the Shock KIT only for its intended purpose; avoid using it for heavy loads or in critical applications where failure could result in injury or damage.
- When securing items, ensure that they are properly balanced and do not exceed the elastic cord's capacity.
- Be cautious when releasing tension on the cord, as it may snap back unexpectedly.
- If using the product in outdoor or extreme conditions, check for environmental factors that may affect its performance, such as extreme temperatures or moisture.
- Do not modify or alter the Shock KIT in any way, as this may compromise its safety and effectiveness.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather the items you wish to secure with the Shock KIT.
- Ensure that the area where you will be using the cord is clear of obstacles and hazards.

### 2. Securing Items:

- Take one end of the elastic cord and loop it around the item you wish to secure.
- Pass the cord through the CordLock and pull it tight to create a secure hold.
- Adjust the length of the cord as necessary, ensuring it is not overly stretched.
- Use the second CordLock to secure the other end of the cord, ensuring it is firmly in place.

### 3. Final Check:

- Once the items are secured, doublecheck that the cord is tight and that the CordLocks are functioning properly.
- Ensure that the secured items do not obstruct movement or pose a risk of falling.

## Disposal Instructions

- Dispose of the Shock KIT in accordance with local regulations for elastic materials.
- Do not dispose of the product in regular household waste if it is damaged or no longer usable.
- Consider recycling options if available in your area.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the Shock KIT, please refer to the manufacturer's contact points available in your region.

By following these safety instructions, you can ensure a safe and effective experience with the Shock KIT Black. Always prioritize safety and report any issues promptly.
