

H70 Signal Panel - Orange | Pink

L'H70 è un innovativo pannello di segnalazione estremamente leggero e compatto. Sviluppato espressamente per esigenze operative, trova perfetto impiego anche in attività di Soccorso, Survival e Outdoor.

- Realizzato con tessuto RipStop ultra-leggero per minimizzare peso e ingombri.
- Doppio colore (Arancio/Magenta) per effettuare diverse tipologie di segnalazione.
- Colori ad alta visibilità per essere facilmente individuati in tutti gli ambienti.
- I due quadrati in Velcro® consentono di aggiungere patch riflettenti e/o IR
- Loop in Paracord T1 ai quattro lati per essere facilmente vincolato / installato

H70 Signal Panel Safety Instructions

Introduction

Thank you for choosing the H70 Signal Panel. This innovative signaling panel is designed for various operational needs, including rescue, survival, and outdoor activities. It is lightweight, compact, and made from highvisibility materials to ensure safety and effectiveness in diverse environments. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always inspect the H70 Signal Panel before use for any signs of damage or wear. Do not use if damaged.
- Ensure that the panel is clearly visible to others when in use. High visibility is crucial for effective signaling.
- Keep the panel away from open flames or extreme heat sources, as it is made from fabric materials.
- Store the panel in a dry place when not in use to prevent mold and deterioration.
- Be aware of your surroundings when using the panel, especially in emergency situations.
- If using the panel in a rescue operation, follow all relevant safety protocols and guidelines.

Specific Safety Precautions for Use

- Do not use the H70 Signal Panel as a flotation device.
- Avoid prolonged exposure to direct sunlight, as this may fade the colors and reduce visibility over time.
- Ensure that the Velcro® squares are securely fastened when attaching patches to prevent them from detaching during use.
- When using the Paracord loops for installation, ensure they are securely tied and will not come loose.
- If using reflective or IR patches, ensure they are compatible with the H70 Signal Panel.
- Keep the panel out of reach of small children when not in use to prevent accidental misuse.

Instructions for Installation and Usage

1. Preparation:

- Remove the H70 Signal Panel from its packaging.
- Inspect the panel for any damage or defects before use.

2. Installation:

- Identify a suitable location for the panel based on your signaling needs.
- Use the Paracord T1 loops at the corners to secure the panel. Ensure the knots are tight and secure.
- If adding reflective or IR patches, attach them to the Velcro® squares on the panel.

3. Usage:

- Position the H70 Signal Panel in a visible area to maximize its effectiveness.
- For signaling, use the orange side for emergency situations and the pink side for nonemergency signaling.
- Ensure that the panel remains taut and visible during use.

4. PostUse Care:

- After use, carefully remove the panel and check for any damage.
- Clean the panel with a damp cloth if necessary and allow it to dry completely before storing.

- Store the panel in a dry and cool place to maintain its integrity.

Disposal Instructions

- Dispose of the H70 Signal Panel in accordance with local regulations regarding fabric and textile disposal.
- If the panel is damaged beyond repair, consider recycling the materials if possible.
- Do not burn the panel, as it may release harmful substances.

Contact Information for Further Support

For any safety inquiries or support regarding the H70 Signal Panel, please contact the manufacturer or refer to the product packaging for further assistance.

By following these safety instructions, you can ensure the safe and effective use of the H70 Signal Panel. Always prioritize safety and remain aware of your surroundings when utilizing this product. Thank you for your attention to these important guidelines.
