

Full Length Die 7/8 - Full Length Die 6,5x64 Brenneke

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 & 6.5x64 Brenneke

Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 & 6.5x64 Brenneke. This product is designed to size cartridge cases safely and effectively. Please read this safety instruction guide thoroughly to ensure proper use and maintenance of the die, in compliance with EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the die is used only for its intended purpose of reloading ammunition.
- Always handle the die and all related equipment with care to prevent accidents.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all local laws and regulations regarding ammunition reloading and usage.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the die.
- Ensure the reloading press is securely mounted and stable before operation.
- Do not exceed the recommended cartridge specifications when using the die.
- Avoid using excessive force when sizing cases to prevent damage to the die and ensure safe operation.
- Always follow the manufacturer's instructions for the correct setup and operation of the die.

Instructions for Installation and Usage

1. Installation:

- Securely mount the reloading press on a stable work surface.
- Attach the Full Length Die to the press using the provided lock nut, ensuring it is tightly secured.
- Adjust the die position to align it correctly with the press mechanism.

2. Usage:

- Insert the cartridge case into the shell holder of the press.
- Pull the handle to push the cartridge case into the die.
- The neck of the case will be calibrated from the inside as it exits the die.
- Check the neck tension of the cartridge case to ensure it meets specifications.
- If necessary, replace the expander or ejector pin using minimal effort.

Disposal Instructions

- Dispose of the die and any damaged components in accordance with local waste disposal regulations.
- Do not dispose of the die in regular household waste. Instead, contact local recycling facilities for proper disposal options.

Contact Information for Further Support

For any questions or concerns regarding the use of the Full Length Die 7/8 & 6.5x64 Brenneke, please refer

to the product manual or contact your retailer for assistance.

Thank you for following these safety guidelines. Your safety is our priority.
