

# Full Length Die 7/8 - Full Length Die 7mm-08 Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide is designed to provide you with essential safety instructions and usage guidelines to ensure a safe and effective experience. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the Full Length Die is used only for its intended purpose, which is to size cartridge cases.
- Always handle the die with care to avoid injury.
- Keep the die out of reach of children and vulnerable individuals.
- Inspect the die regularly for any signs of wear or damage. If any issues are found, do not use the die until it has been repaired or replaced.
- Use the die in a wellventilated area to avoid inhaling any dust or debris produced during the reloading process.
- Follow all local laws and regulations regarding reloading and firearm safety.

## Specific Safety Precautions for Use

- Always wear safety glasses when using the die to protect your eyes from any debris.
- Ensure that the reloading press is securely anchored to a stable surface before use.
- Do not exceed the recommended load data when reloading cartridges.
- Use appropriate personal protective equipment (PPE), such as gloves, to avoid contact with any chemicals or materials.
- Be aware of the potential hazards associated with handling gunpowder and primers, and follow all safety protocols related to their use.
- Keep the work area clean and organized to prevent accidents.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the Full Length Die into your reloading press using the lock nut to ensure stability during operation.
- Make sure the die is properly aligned with the ram of the press.

### 2. Usage:

- Begin by preparing your cartridge cases for resizing. Ensure they are clean and free from debris.
- Insert the cartridge case into the die, ensuring that it is seated correctly.
- Operate the press to push the cartridge case into the die. This will resize the case and calibrate the neck for proper tension.
- After resizing, carefully remove the cartridge case from the die.
- Inspect the resized case for any defects before proceeding to load it.

### 3. Maintenance:

- Periodically check the expander and ejector pin for wear. These parts can be replaced easily if necessary.
- Store the die in a dry place to prevent rust and corrosion.

## **Disposal Instructions**

- Dispose of any damaged or worn components of the Full Length Die in accordance with local regulations.
- Do not dispose of the die with regular household waste. Check with local authorities for proper disposal methods for metal components.

## **Contact Information for Further Support**

For any questions or concerns regarding the Full Length Die, please refer to your product manual or contact the manufacturer directly for assistance. Ensure you have your product details ready when seeking support.

Thank you for following these safety guidelines. Your safety is our priority, and proper usage of the Full Length Die will help ensure a successful and enjoyable reloading experience.
