The MDT ACC Premier GEN2 Chassis System is the ultimate upgrade for precision rifle enthusiasts, building on the foundation of the industry-defining ACC Premier. Incorporating advancements from the ACC Elite, the GEN2 boasts superior features that elevate your shooting experience:

1. **Enhanced Stability:** The taller integrated barricade stop and a thicker, more rigid forend provide unmatched stability on barricades and PRS props, ensuring precise and consistent shots.
2. **Customizable Balance:** Achieve the perfect rifle balance for faster target acquisition and precise follow-up shots. The chassis is compatible with a variety of weights, allowing you to fine-tune your setup to suit your shooting style.
3. **Compact and Versatile Forend:** Designed with a 15" forend, the GEN2 comfortably accommodates barrels starting at 17". This compact design makes it an excellent choice for the growing rimfire competition shooting scene.
4. **NV and Control Bridge System Compatibility:** Drilled holes along the top of the forend allow seamless integration with MDT's NV and Control Bridge system, providing expanded customization options.
5. **Integrated ARCA Rail:** The full-length integrated ARCA rail offers maximum versatility for mounting bipods, tripods, and other accessories, enhancing your rifle's stability during competition.

# MDT Chassis ACC Premier Gen 2 Safety Instruction Guide

## Introduction

Thank you for choosing the MDT ACC Premier Gen 2 Chassis System. This guide provides essential safety instructions to ensure the safe and effective use of your new chassis. Please read this guide carefully before using the product to understand how to operate it safely and responsibly.

## General Safety Guidelines

- Always ensure that the chassis is compatible with your rifle model before use.
- Inspect the chassis for any signs of damage before each use.
- Keep the chassis and all accessories out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding the use of firearms and accessories.
- Store the chassis in a safe, dry place when not in use to prevent damage.
- Utilize proper shooting techniques to minimize the risk of accidents.

## Specific Safety Precautions for Use

- Ensure that the rifle is unloaded before installing or adjusting the chassis.
- Use only the recommended weights and accessories to maintain balance and stability.
- Be aware of your surroundings and ensure a safe shooting environment.
- Wear appropriate personal protective equipment, including eye and ear protection, while using the chassis.
- Never modify the chassis or use it in ways not specified in the product guidelines.
- Regularly check for loose screws or components and tighten them as necessary.

## Instructions for Installation and Usage

### Installation

1. **Prepare the Rifle:** Ensure the rifle is unloaded and pointed in a safe direction.
2. **Remove Existing Stock:** Carefully detach the existing stock from your rifle following the manufacturer's instructions.
3. **Attach the Chassis:** Align the MDT ACC Premier Gen 2 chassis with the rifle's action and secure it using the provided screws. Ensure all screws are tightened properly.
4. **Install Weights:** If desired, add weights to achieve the preferred balance. Follow the guidelines for weight placement to maintain stability.
5. **Check Compatibility:** Ensure that all components are secure and that the chassis is compatible with your rifle's barrel length.

### Usage

- **Target Acquisition:** Adjust the forend and grip to achieve a comfortable shooting position.
- **Shooting Practice:** Always practice in a controlled environment, adhering to all safety protocols.
- **Adjustments:** Make adjustments to the chassis as necessary, ensuring that all components are secure after each adjustment.

## Disposal Instructions

- Dispose of the chassis and any associated materials in accordance with local regulations.
- Do not dispose of the chassis in regular household waste.

- Contact your local waste management authority for guidance on proper disposal methods for aluminum and other materials.
