

Teiwaz Hybrid 3x20mm Magnifier

[Optics & Mounting](#) > [Electronic Sights](#) > [Red Dot Sights](#)

The Wolfskrieger Teiwaz Hybrid 3x20mm Magnifier was developed as part of the complete Teiwaz optic system, alongside the Hybrid Red Dot and Hybrid Prism Scope. Created in close cooperation with military end users and refined through extended field testing, it delivers a capability that is currently first and unique in its class.

At its core, this is not just a simple 3x magnifier. It integrates a ballistic reticle inspired by the original G36 concept, but fully modernized and adapted to a MIL-based system. In addition to traditional ranging references, the reticle incorporates shoulder-width estimation as an additional rangefinding indicator - a practical improvement that makes distance estimation faster and more intuitive in real tactical environments.

The result is a magnifier that does more than enlarge the dot - it adds meaningful capability. In professional situations, being able to estimate distance instantly, without external tools, is a decisive advantage.

The magnifier uses an integrated flip-to-side mount on a NATO Accessory Rail interface (Picatinny compatible), allowing immediate transition between unmagnified speed and magnified precision. It is designed to work seamlessly with modern optic heights and includes adapters for both 40 mm lower 1/3 setups as well as the increasingly popular 57.5 mm high cheek weld configuration, ensuring full compatibility with the Teiwaz Hybrid red dot system.

Due to the nature of any flip mount system, it is not a true hold-zero optic in the strictest sense. However, it is absolutely suitable for deliberate and prolonged shots. If the magnifier were ever slightly off-center, this becomes instantly visible based on the red dot's position relative to the reticle, a feature that has proven extremely valuable in practical use.

The optic is fully sealed and rated IP67 waterproof, nitrogen purged, and fog resistant, ensuring reliable performance in harsh environments. A ± 2 diopter adjustment allows the shooter to fine-tune the image to their eyesight, while internal centering adjustments ensure proper alignment with the primary optic.

The optic is shock resistant, fogproof, IP67 waterproof, and backed by a lifetime warranty tied to its serial number, meaning it stays covered even if it changes hands.

Attributes

- Name: [Teiwaz Hybrid 3x20mm Magnifier](#)
- Manufacturer: [WOLFSKRIEGER](#)
- Product no.: EU2016686
- Mfr. No.: WKG-1486-BLK
- Colour: Black
- Delivery weight: 1kg
- Shipping height: 100mm

NO IMAGE
AVAILABLE

- Shipping width: 100mm
- Shipping length: 100mm

Teiwaz Hybrid 3x20mm Magnifier Safety Instruction Guide

Introduction

Thank you for choosing the Teiwaz Hybrid 3x20mm Magnifier. This safety instruction guide is designed to ensure the safe and effective use of your magnifier while complying with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Always handle the magnifier with care to prevent damage.
- Keep the magnifier out of reach of children and vulnerable individuals.
- Regularly inspect the magnifier for any signs of wear or damage before use.
- In case of any malfunction or damage, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Avoid exposing the magnifier to extreme temperatures, humidity, or direct sunlight for prolonged periods.
- Do not attempt to disassemble or modify the magnifier as this may compromise its safety and functionality.
- Use the magnifier only in environments that are free from excessive dust, moisture, and corrosive substances.
- When using the magnifier, ensure that it is securely mounted to prevent accidental detachment.
- Be aware of your surroundings and ensure that you are in a safe location while using the magnifier.

Instructions for Installation and Usage

1. Installation:

- Ensure that the mounting surface is clean and dry.
- Attach the integrated flip-top mount to a compatible NATO Accessory Rail (Picatinny).
- Verify that the mount is securely fastened and that the magnifier is stable.

2. Usage:

- Adjust the diopter setting to suit your eyesight for optimal clarity.
- When transitioning between unmagnified and magnified views, smoothly flip the magnifier to the side.
- Use the ballistic reticle for distance estimation, taking advantage of the shoulderwidth estimation feature.
- Regularly check the alignment of the red dot relative to the reticle to ensure proper functionality.

Disposal Instructions

- Dispose of the magnifier in accordance with local regulations regarding electronic waste.
- Do not dispose of the magnifier in regular household waste.
- If the product is damaged beyond repair, contact your local waste management facility for guidance on proper disposal.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please contact the manufacturer or your local distributor.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the Teiwaz Hybrid 3x20mm Magnifier. Always prioritize safety and seek assistance if you have any questions or concerns about the product. Thank you for your attention to these important guidelines.
