

# Teiwaz Hybrid 5x20mm Magnifier

[Optics & Mounting](#) > [Electronic Sights](#) > [Red Dot Sights](#)

The Wolfskrieger Teiwaz Hybrid 5x20mm Magnifier was developed as part of the complete Teiwaz optic system, alongside the Hybrid Red Dot and Hybrid Prism Scope. Created in close cooperation with military end users and refined through extended field testing, it delivers a capability that is currently first and unique in its class.

At its core, this is not just a simple 5x magnifier. It integrates a ballistic reticle inspired by the original G36 concept, but fully modernized and adapted to a MIL-based system. In addition to traditional ranging references, the reticle incorporates shoulder-width estimation as an additional rangefinding indicator - a practical improvement that makes distance estimation faster and more intuitive in real tactical environments.

The result is a magnifier that does more than enlarge the dot - it adds meaningful capability. In professional situations, being able to estimate distance instantly, without external tools, is a decisive advantage.

The magnifier uses an integrated flip-to-side mount on a NATO Accessory Rail interface (Picatinny compatible), allowing immediate transition between unmagnified speed and magnified precision. It is designed to work seamlessly with modern optic heights and includes adapters for both 40 mm lower 1/3 setups as well as the increasingly popular 57.5 mm high cheek weld configuration, ensuring full compatibility with the Teiwaz Hybrid red dot system.

Due to the nature of any flip mount system, it is not a true hold-zero optic in the strictest sense. However, it is absolutely suitable for deliberate and prolonged shots. If the magnifier were ever slightly off-center, this becomes instantly visible based on the red dot's position relative to the reticle, a feature that has proven extremely valuable in practical use.

The optic is fully sealed and rated IP67 waterproof, nitrogen purged, and fog resistant, ensuring reliable performance in harsh environments. A  $\pm 2$  diopter adjustment allows the shooter to fine-tune the image to their eyesight, while internal centering adjustments ensure proper alignment with the primary optic.

The optic is shock resistant, fogproof, IP67 waterproof, and backed by a lifetime warranty tied to its serial number, meaning it stays covered even if it changes hands.

## Attributes

- Name: [Teiwaz Hybrid 5x20mm Magnifier](#)
- Manufacturer: [WOLFSKRIEGER](#)
- Product no.: EU2016687
- Mfr. No.: WKG-1487-BLK
- Colour: Black
- Delivery weight: 1kg
- Shipping height: 100mm

NO IMAGE  
AVAILABLE

- Shipping width: 100mm
- Shipping length: 100mm
- UPC: 726529841329

# Safety Instruction Guide for Teiwaz Hybrid 5x20mm Magnifier

## Introduction

Thank you for choosing the Teiwaz Hybrid 5x20mm Magnifier. This product is designed to enhance your optical capabilities while ensuring safety and reliability. Please read this safety instruction guide carefully to ensure proper use and maintenance of your magnifier.

## General Safety Guidelines

- Always handle the magnifier with care to prevent damage.
- Ensure the magnifier is used only for its intended purpose as described in this guide.
- Keep the magnifier out of reach of children and vulnerable individuals.
- Regularly check the magnifier for any signs of wear or damage before use.
- Follow all local regulations regarding the use of optical devices.

## Specific Safety Precautions for Use

- Do not look directly at the sun or other intense light sources through the magnifier, as this may cause permanent eye damage.
- Ensure that the magnifier is securely mounted to prevent it from becoming dislodged during use.
- Be aware of your surroundings when using the magnifier to avoid accidents.
- Use the diopter adjustment feature to ensure optimal clarity for your eyesight.
- If the magnifier becomes fogged, do not attempt to use it until it has cleared.

## Instructions for Installation and Usage

### Installation

#### 1. Mounting the Magnifier:

- Attach the magnifier to a NATO Accessory Rail (Picatinny compatible) using the integrated flipside mount.
- Ensure that the mount is securely tightened to prevent movement during use.

#### 2. Adjusting the Magnifier:

- Use the integrated diopter adjustment to finetune the image clarity to your eyesight.
- Check the alignment with your primary optic to ensure proper functionality.

### Usage

- To use the magnifier, flip it into position for magnified viewing.
- For quick target acquisition, flip the magnifier to the side when not in use.
- Always check the reticle alignment with the red dot before engaging in any shooting activities.
- Practice estimating distances in a safe environment to familiarize yourself with the ballistic reticle features.

## Disposal Instructions

- Dispose of the magnifier in accordance with local regulations for electronic waste.
- Do not dispose of the magnifier in regular household waste.

- If the magnifier is damaged or no longer functional, consider recycling it at a designated electronic waste facility.

## **Contact Information for Further Support**

For any inquiries or safety concerns regarding the Teiwaz Hybrid 5x20mm Magnifier, please consult your retailer or visit the manufacturer's website for further assistance.

Please follow these safety instructions to ensure a safe and effective experience with your Teiwaz Hybrid 5x20mm Magnifier. Your safety and satisfaction are our top priorities.
