

Nylon Best Bore Brush, .20 Cal 3-Pack

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

The Tipton Best Nylon Bore Brush is built for serious shooters who demand fast, effective, and safe barrel cleaning. Extra-stiff bristles cut through copper fouling, stubborn carbon, and residue to significantly reduce cleaning time. Unlike standard nylon brushes, the thick bristles resist breakdown from aggressive scrubbing and harsh cleaning solvents, delivering long-lasting performance.

Designed with a non-marring brass core, this brush is 100% safe for both rifle and pistol barrels. Available in 14 sizes from .17 caliber to .50 caliber, the Tipton Best Nylon Bore Brush provides superior cleaning power across a wide range of firearms. Sold in packs of three.

Safety Instruction Guide for Nylon Best Bore Brush, .20 Cal

Introduction

Thank you for choosing the Nylon Best Bore Brush, .20 Cal. This product is designed for serious shooters looking for an effective and safe solution for barrel cleaning. This safety instruction guide provides essential information to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the brush for any damage or wear before each use.
- Follow all safety precautions when handling firearms and cleaning supplies.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the bore brush only on the specified calibers (.20 Cal) and firearms (rifles and pistols).
- Always wear safety goggles and gloves when cleaning firearms to protect against debris and solvents.
- Ensure the firearm is unloaded and pointed in a safe direction before using the bore brush.
- Avoid using excessive force when scrubbing to prevent damage to the firearm barrel.
- Store the bore brush in a safe place, away from direct sunlight and moisture.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a safe environment.
- Gather all necessary cleaning supplies, including cleaning solvent and patches.

2. Using the Bore Brush:

- Attach the nylon bore brush to a cleaning rod that is compatible with the .20 Cal brush.
- Apply a suitable cleaning solvent to the brush.
- Insert the brush into the barrel from the chamber end (if applicable) and gently twist while pushing it through the barrel.
- Pull the brush back through the barrel and repeat the process until the barrel is clean.
- Do not force the brush; if resistance is felt, check for obstructions.

3. Cleaning After Use:

- Rinse the bore brush with clean water to remove any solvent and debris.
- Allow the brush to dry completely before storing it.

Disposal Instructions

- Dispose of the bore brush in accordance with local regulations for household waste.
- Do not dispose of the brush in fire or extreme heat, as it may release harmful substances.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and usage of the Nylon Best Bore Brush, please contact the designated EU contact point for your region.

Thank you for your attention to these safety instructions. Proper use and care of the Nylon Best Bore Brush will ensure a safe and effective cleaning experience for your firearms.
